Hansen, 2012-12-21 This book outlines the generalist approach to conflict resolution. The approach was inspired by the generalist approach to social work but has now emerged in the fields of conflict resolution and peace studies. Essentially, the approach considers conflict resolution practice and scholarship very broadly. Generalist scholarship and practice are contrasted against specialized ways of conducting conflict resolution whereby practitioners become well-versed in one mode of practice or a specific theoretical orientation to scholarship. Several theories provide a foundation for this inclusive approach: conflict transformation, eco-systemic scholarship, the strengths perspective, and a new theory of social conflict, the theory of differences. The generalist approach is intended to provide a way for conflict resolution and peace studies scholars/practitioners to help diverse parties address complex conflicts at various levels: personal to international. Generalist scholars/practitioners assist parties to comprehensively and holistically address these conflicts in a multi-layered, multi-level fashion, but they must be comfortable with ambiguity, monitor intervention complexity, and give parties control over how their conflicts are addressed. Ultimately, this may make parties more committed to their conflict interventions and outcomes.

Bastidas, 2017-01-02 Using a case study of the Trio indigenous peoples in Suriname, *Conflict and Sustainability in a Changing Environment* presents an inside view of a community facing climate change and on the path toward sustainable development. With more than ten years of field experience, Smith and Bastidas present an in-depth, bottom-up analysis of sustainable development, including tools for practitioners, insight for academics, and advice to policymakers. **Parenting Coordination** Debra
