to supply For a treatise intended to meet the requirements of older students a different choice of materials would often have

following pages no mention is made of some of the questions which are discussed in larger works that other questions are
touched upon but not probed to the bottom that here and there a definition lacks completeness logical accuracy being
sacrificed to intelligibility and that the details of early English accidence have been inserted only when modern forms would
be inexplicable without them There are elementary books which furnish information so copious that young readers cannot
