**The Eye of Osiris. a Detective Story** Richard Freeman, 2018-03-06 The school of St Margaret's Hospital was fortunate in its lecturer on Medical Jurisprudence or Forensic Medicine as it is sometimes described At some schools the lecturer on this subject is appointed apparently for the reason that he lacks the qualifications to lecture on any other But with us it was very different John Thorndyke was not only an enthusiast a man of profound learning and great reputation but he was an exceptional teacher lively and fascinating in style and of endless resources Every remarkable case that had ever been reported he appeared to have at his fingers ends every fact chemical physical biological or even historical that could in any way be twisted into a medico legal significance was pressed into his service and his own varied and curious experiences seemed as inexhaustible as the widow's curse One of his favorite devices for giving life and interest to a rather dry subject was that of analyzing and commenting upon contemporary cases as

reported in the papers always of course with a due regard to the legal and social proprieties and it was in this way that I first became introduced to the astonishing series of events that was destined to exercise so great an influence on my own life The lecture which had just been concluded had dealt with the rather unsatisfactory subject of survivorship Most of the students had left the theater and the remainder had gathered round the lecturer's table to listen to the informal comments that Dr Thorndyke was wont to deliver on these occasions in an easy conversational manner leaning against the edge of the table and apparently addressing his remarks to a stick of blackboard chalk that he held in his fingers
