

The background of the cover features a complex, abstract geometric pattern. It consists of numerous thin, light blue lines radiating from a central point, creating a starburst or sunburst effect. Overlaid on this pattern are several concentric, slightly irregular circles or rings, also in a light blue color, which add depth and a sense of movement to the design.

The Morality Of Private War:

The Morality of Private War James Pattison, 2014 The private military industry has been growing rapidly since the end of the Cold War The Morality of Private War uses normative political theory to assess the leading moral arguments for and against the use of private military and security companies *The Ethics of Military Privatization* David M. Barnes, 2016-08-25 This book explores the ethical implications of using armed contractors taking a consequentialist approach to this multidisciplinary debate While privatization is not a new concept for the US military the public debate on military privatization is limited to legal financial and pragmatic concerns A critical assessment of the ethical dimensions of military privatization in general is missing More specifically in light of the increased reliance upon armed contractors it must be asked whether it is morally permissible for governments to employ them at all To this end this book explores four areas that highlight the ethical implications of using armed contractors how armed contractors are distinct from soldiers and mercenaries the commodification of force the belligerent equality of combatants and the impact of armed contractors on the professional military While some take an absolutist position wanting to bar the use of private military altogether this book reveals how these absolutist arguments are problematic and highlights that there are circumstances where turning to private force may be the only option Recognising that outsourcing force will continue this book thus proposes some changes to account for the problems of commodification belligerent equality and the challenge to the military profession This book will be of interest to students of private security military studies ethics security studies and IR in general **The Routledge Handbook to Rethinking Ethics in International Relations** Birgit Schippers, 2020-05-21 Discussing cutting edge debates in the field of international ethics this key volume builds on existing work in the normative study of international relations It responds to a substantial appetite for scholarship that challenges established approaches and examines new perspectives on international ethics and that appraises the ethical implications of problems occupying students and scholars of international relations in the twenty first century The contributions written by a team of international scholars provide authoritative surveys and interventions into the field of international ethics Focusing on new and emerging ethical challenges to international relations and approaching existing challenges through the lens of new theoretical and methodological frameworks the book is structured around five themes New directions in international ethics Ethical actors and practices in international relations The ethics of climate change globalization and health Technology and ethics in international relations The ethics of global security Interdisciplinary in its scope this book will be an important resource for scholars and students in the fields of politics and international relations philosophy law and sociology and a useful reference for anyone who wishes to acquire ethical competence in the area of international relations Essays on the principles of morality, and on the private and political rights and obligations of mankind ... With a preface by the Rev. G. Bush Jonathan DYMOND, 1834 **Peace Forum**, 1914 **The Peace Forum**, 1913 *Essays on the Principles of Morality & on the Private & Political Rights &*

Obligations of Mankind Jonathan Dymond,1896 **Francisco de Vitoria and the Evolution of International Law** Amaya Amell,2021-03-04 Francisco de Vitoria and the Evolution of International Law Justifying Injustice is a reconstruction of the philosophical and legal theories of Fray Francisco de Vitoria hailed by many as one of the primary founders of international law and how these served to introduce the theory of an international community in which all nations take part regardless of religious beliefs The impact of the conquest of the Americas resulted in a transformation or re articulation of the Old World s preconceived notions of human nature and the rights of people and nations Due to the need for a more universal principle the theory of international law began to expand In order to present a perspective on international law and human rights beyond the scope of the Spanish conquest of the Americas Vitoria s thoughts are compared to those of Hugo Grotius and John Locke to show how the issues of natural human and divine law evolved through time Their questioning of the right to invade other countries and subdue their inhabitants brought to light the conflictive relationship between colonial expansion and the law of nations and was an essential part of debates among intellectuals jurists and theologians in an attempt to find a way to reconcile these two often contradictory notions *Essays on the Principles of Morality* Jonathan Dymond,1896 **Essays on the Principles of Morality, and on the Private and Political Rights and Obligations of Mankind** Jonathan Dymond,1880 *The Ethics of Armed Humanitarian Intervention* Don E. Scheid,2014-04-24 The question of military intervention for humanitarian purposes is a major focus for international law the United Nations regional organizations such as NATO and the foreign policies of nations Against this background the 2011 bombing in Libya by Western nations has occasioned renewed interest and concern about armed humanitarian intervention AHI and the doctrine of Responsibility to Protect RtoP This volume brings together new essays by leading international philosophical and political thinkers on the moral and legal issues involved in AHI and contains both critical and positive views of AHI Topics include the problem of abuse and needed limitations the future viability of RtoP and some of its problematic implications the possibility of AHI providing space for peaceful political protest and how AHI might be integrated with post war justice It is an important collection for those studying political philosophy international relations and humanitarian law **Poetic Obligation** Matthew G. Jenkins,2008-04 Since at least the time of Plato s Republic the relationship between poetry and ethics has been troubled Through the prism of what has been called the new ethical criticism inspired by the work of Emmanuel Levinas G Matthew Jenkins considers the works of Objectivists Black Mountain poets and Language poets in light of their full potential to reshape this ancient relationship American experimental poetry is usually read in either political or moral terms Poetic Obligation by contrast considers the poems of Louis Zukofsky Charles Reznikoff George Oppen Edward Dorn Robert Duncan Susan Howe and Lyn Hejinian in terms of the philosophical notion of ethical obligation to the Other in language Jenkins s historical trajectory enables him to consider the full breadth of ethical topics that have driven theoretical debate since the end of World War II This original approach establishes an ethical lineage in the works of twentieth century experimental

poets creating a way to reconcile the breach between poetry and the issue of ethics in literature at large With implications for a host of social issues including ethnicity and immigration economic inequities and human rights Jenkins s imaginative reconciliation of poetry and ethics will provide stimulating reading for teachers and scholars of American literature as well as advocates and devotees of poetry in general Poetic Obligation marshals ample evidence that poetry matters and continues to speak to the important issues of our day *Sociology and Ethics* Edward Cary Hayes,1921 *Gender and Private Security in Global Politics* Maya Eichler,2015 For two hundred years the provision of military security has been a central and defining function of the modern nation state The increasing reliance on private military and security companies in contemporary conflict marks a fundamental transformation in the organization of military violence and it raises issues of accountability and ethics that are of particular concern to feminists This privatization of force not only enables states to circumvent citizens democratic control over questions of war and peace but also undermines women s and minority groups claims for greater inclusion in the military sphere *Gender and Private Security in Global Politics* brings together key scholars from the fields of international relations security studies and gender studies to argue that privatization of military security is a deeply gendered process The chapters employ a variety of feminist perspectives including critical postcolonial poststructuralist and queer feminist perspectives as well as a wide range of methodological approaches including ethnography participant observation genealogy and discourse analysis This is the first book to develop an extended feminist analysis of private militaries and to draw on feminist concerns regarding power justice and equality to consider how to reform and regulate private forces **Chancellor's English essay, 1873. The effects of continued war upon a nation** Andrew Goldie Wood,1873 **The Evolution of Morality** Charles Staniland Wake,1878 **The Nation** ,1904 **The History of English Law Before the Time of Edward I** Frederick Pollock,Frederic William Maitland,1895 Although this book was envisaged as a joint venture and bears the name of both Pollock and Maitland it is substantially the work of Maitland It was recognized at once as a masterpiece and has since been accepted as one of the great histories in the English language In Maitland s lifetime Acton pronounced him the ablest historian in England Plucknett said that everything he wrote exercises a deep fascination and a personal attraction To Sir Maurice Powicke he was one of the immortals Lord Annan in the preface to his *Leslie* Stephen called him perhaps the greatest of all professional historians To read *The History of English Law* even many years after Maitland s death is to feel at once the touch of a master *The Present "Just Peace/Just War" Debate* Ad de Bruijne, Gerard den Hertog,2018-09-01 At first the end of the Cold War seemed to mark a period of relative rest However it became apparent that we have not reached the end of history As a matter of fact the world is confronted by new political constellations of so far unknown martial intensity Although Muslim terrorism and the revival of tribalism and nationalism are closely connected At the same time the international community proves mostly powerless as a result of the cooling relationship between East and West These developments offer challenging questions for Western societies Both in Germany

and in the Anglo Saxon world debates on the concepts of Just peace Just war have intensified but mutual engagement between these contexts has remained scarce Against this background a conference was held in Apeldoorn in a Dutch interspace in 2016 in which ethicists from both contexts were involved The present volume contains the edited version of the seven contributions to this conference supplemented with four articles by others that were written deliberately for this volume Die Debatte Gerechter Frieden Gerechter Krieg Zwei Diskussionen oder eine Nach dem Ende des Kalten Krieges hatte es den Anschein als breche eine Friedensperiode an Leider hat sich inzwischen gezeigt dass wir nicht ans Ende der Geschichte gelangt sind Vielmehr sieht sich die Welt am Beginn des 21 Jahrhunderts mit neuen politischen Konstellationen ungekannter kriegereischer Intensit t konfrontiert Dabei h ngen islamistischer Terror und das Wiederaufleben von Tribalismus und Nationalismus zusammen Hinzu kommt dass das Ost West Verh ltnis sich zunehmend verschlechtert wodurch die Machtinstrumente der internationalen Gemeinschaft kraftlos geworden sind Diese Entwicklungen stellen herausfordernde Fragen an die westlichen Gesellschaften Sowohl in Deutschland als auch in der angels chsischen Welt ist die Debatte ber die Themen Gerechter Frieden Gerechter Krieg neu aufgebrochen aber sie findet weitgehend getrennt voneinander statt Vor diesem Hintergrund hat 2016 in Apeldoorn im niederl ndischen Zwischenraum eine Konferenz stattgefunden an der Ethiker aus beiden Kontexten beteiligt waren Dieser Band dokumentiert deren sieben Vortr ge erg nzt um vier Aufs tze die speziell f r diesen Band geschrieben wurden Mit Beitr gen von Ted van Baarda Nigel Biggar Jan Peter van Bruggen Ad de Bruijne Guido de Graaff Gerard den Hertog Marco Hofheinz Wolfgang Lienemann Hans Ulrich Pieter Vos Greetje Witte Rang **The Westminster Review** ,1891
