(From "Twice Told Tales") Натаниель Готорн, 2021-12-02 **The YWCA Magazine**, 1911 **Kierkegaard's Journals**
and Notebooks, Volume 8 Søren Kierkegaard, 2015-08-18 For over a century the Danish thinker Søren Kierkegaard 1813-55
has been at the center of a number of important discussions concerning not only philosophy and theology but also more
recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively
short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press
edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists
of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers
but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the
greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious
political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of
thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new
insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's
Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his
journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added
later This edition of the journals reproduces this format includes several photographs of original manuscript pages and
contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced
Volume 8 of this 11 volume series includes five of Kierkegaard's important NB journals Journals NB21 through NB25 which
cover the period from September 1850 to June 1852 and which show Kierkegaard alternately in polemical and reflective
postures The polemics emerge principally in Kierkegaard's opposition to the increasing infiltration of Christianity by worldly
concerns a development that in his view had accelerated significantly in the aftermath of the political and social changes
wrought by the Revolution of 1848 Kierkegaard understood the corrupting of Christianity to be in the interest of the powers
that be and he directed his criticism at politicians the press and especially the Danish Church itself particularly church
officials who claimed to be reformers On the reflective side Kierkegaard delves into a number of authors and religious figures
some of them for the first time including Montaigne Pascal Seneca Savonarola Wesley and F W Newman These journals also
contain Kierkegaard's thoughts on the decisions surrounding the publication of the Anti Climacus writings *The Sickness unto*
Death and especially *Practice in Christianity* Kierkegaard's reader gets the sense both of a gathering storm by the close of
the last journal in this volume the famous attack on Christendom is less than three years away and a certain hesitancy What
needs reforming Kierkegaard insists is not the doctrine or the Church but existences i.e. lives [Kierkegaard's Influence on](#)
[Literature, Criticism and Art](#) Jon Stewart, 2013 Vol 2 is dedicated to the use of Kierkegaard by later Danish writers Almost

from the beginning Kierkegaard's works were standard reading for these authors Danish novelists and critics from the Modern Breakthrough movement in the 1870s were among the first to make extensive use of his writings These included the theoretical leader of the movement the critic Georg Brandes who wrote an entire book on Kierkegaard and the novelists Jens Peter Jacobsen and Henrik Pontoppidan

Ethical Silence Sergia Hay, 2020-10-14 Ethical Silence Kierkegaard on Communication Education and Humility examines a new area of Kierkegaard scholarship the ethical value of silence Through exegesis of Kierkegaard's later writings works in what is known as his second authorship Sergia Hay argues that silence is an essential element of his Christian ethics Starting with an overview of Kierkegaard's ideas concerning ethics and communication Hay builds a case for a Kierkegaardian notion of ethical silence by showing how silence contributes to the fulfillment of ethical imperatives by halting chatter setting the fundamental tone for ethical activity curbing excessive self love and providing another mode for educating and expressing love Most importantly silence can be used to humble the self and elevate the neighbor creating conditions of Christian equality Ethical silence is not the silence of the ineffable or what cannot be said this is the silence of what can be said but should not
