The Dissolution Hours The Dissolution Hours Disillusionment Book 1:

Grace, Talent, and Merit Anthony J. La Vopa, 2002-06-27 Poor students experienced a kind of upward mobility that was not uncommon in old regime Europe They were also objects of controversy and as such they reveal the many dimensions of the issue of opening careers to talent At stake were socially and politically sensitive questions about the relative importance of nature and nurture of natural talent and birth in realizing human potential about the proper reconciliation of collective imperatives and individual freedom of hierarchical stability and progress about how national systems of education should be structured about the kind and degree of upward mobility the society and the culture needed and could tolerate This 1988 book shows how a cluster of familiar eighteenth century ideas about grace talent and merit shaped a formative social experience for men whose importance is still celebrated today as well as for members of the educated elite who were and have remained obscure

Piorkowski,2008-10-30 Romantic love is often an elusive fragile and tenuous state difficult to maintain across time The rates of divorce re divorce relationship violence and abuse today attest to the fact we are failing at romantic love And for teen aged and adult children of divorce romantic love can be especially elusive Because they have no roadmap for a satisfying stable romantic relationship derived from their own parents they are confused by what love is and tend to make poor partner choices Borrowing heavily from popular culture for unrealistic standards regarding love they become disillusioned when their all too ordinary lovers don t

measure up Especially vulnerable to the problems their parents had they tend to overreact in a similar negative fashion and are all too ready to consider divorce when unhappiness strikes In attempting to halt intergenerational transmission of divorce Psychologist Piorkowski points to how we can recognize that American popular culture presents an overly sexualized explosive and superficial version of love that can't last With this book adult children of divorce can begin to see how they have been affected by familial experiences and develop a new realistic map to find more fulfilling and enduring romantic relationships Piorkowski in an extensive review of literature also looks at cultural factors and how they impact romantic love and marriage In contrast to American popular culture's shallow rendition of romantic love many cultures elsewhere in the world emphasize compatibility religion and family allegiance As a result says the author such marriages appear more stable than American unions built upon the shifting sands of emotion

Mythocracy Yves Citton, 2025-04-01 Harnessing the power of storytelling for political progress Mythocracy examines the narrative mechanisms that script our lives through the stories we tell one another Digging beneath common anxieties about fake news Yves Citton looks at the attention economy which organises our political perceptions around affective attractors These are much more powerful than the truth value of any given narrative The time has come for the left to reclaim the power of myth from reactionary populism
