The Elements of Drawing John Ruskin,2017-11 The Elements of Drawing in Three Letters to Beginners John Ruskin With Illustrations Drawn by the Author This book is not calculated for the use of children under the age of twelve or fourteen I do not think it advisable to engage a child in any but the most voluntary practice of art If it has talent for drawing it will be continually scrawling on what paper it can get and should be allowed to scrawl at its own free will due praise being given for every appearance of care or truth in its efforts It should be allowed to amuse itself with cheap colours almost as soon as it has sense enough to wish for them If it merely daubs the paper with shapeless stains the colour box may be taken away till it knows better but as soon as it begins painting red coats on soldiers striped flags to ships etc it should have colours at command and without restraining its choice of subject in that imaginative and historical art of a military tendency which children delight in generally quite as valuable by the way as any historical art delighted in by their elders it should be gently led by the parents to try to draw in such childish fashion as may be the things it can see and likes birds or butterflies or flowers or fruit In later years the indulgence of using the colour should only be granted as a reward after it has shown care and progress in its drawings with pencil **Cassell's Illustrated Universal History: The middle ages. 1895** Edmund
