The Enchanted City:

The Enchanted City Marialuisa Tarascio, 2017-05-23 The following story takes place in an enchanted and magical kingdom protected by a young Prince The event highly expected by the inhabitants of the Enchanted City will be threatened by the obscure forces of an ancient enemy of the Prince Genre JUVENILE FICTION Fantasy Magic **The Enchanted City** Eugene Hennebert, 2014-10-31 Before writing *The Enchanted City A Journey to Lake Tanganyika* 1885 Eugene Hennebert consulted Jules Verne the result is a novel that combines exotic adventures with scientific discovery with a buoyant tone and an action packed narrative Following on the trail of past heroic expeditions a disparate band of French explorers embark upon the quest for Kisimbasinga the eponymous enchanted city of Central Africa During their epic journey they will face dangerous native tribes legions of hostile animals trek through mysterious underground caverns before they finally reach their goal Contemporary with H Rider Haggard's *King Solomon's Mines* *The Enchanted City* is a somewhat didactic and earnest portrayal of the heroic age of African exploration celebrating the achievements of an era which today is filled with nostalgia **The city trip guide for Cuenca (Spain)** YouGuide Ltd, **The City of the Senses, the Senses in the City** Zara Pinto-Coelho, Helena Pires, 2022-02-17 Urban oriented sensory analysis has a long tradition within the social sciences However in communication and cultural studies research the sensorial orientation is still incipient This publication is part of an ongoing call by *Passeio* the platform for the study of art and urban culture of the Communication and Society Research Centre for an organicist vision of the city underlining the need to re-signify the role of the senses in the experience of everyday contemporary urban life This book includes theoretical and or empirical contributions from researchers in sociology communication and cultural studies who explore three fundamental questions a the effects of the tourist era under the COVID 19 pandemic b the role of music in the production of places and socialities and c the importance of ambiances in the constitution of a carnal relationship with the city **The Most Typical Avant-Garde** David James, 2005-05-30 Los Angeles has nourished a dazzling array of independent cinemas avant garde and art cinema ethnic and industrial films pornography documentaries and many other far flung corners of film culture This glorious panoramic history of film production outside the commercial studio system reconfigures Los Angeles rather than New York as the true center of avant garde cinema in the United States As he brilliantly delineates the cultural perimeter of the film business from the earliest days of cinema to the contemporary scene David James argues that avant garde and minority filmmaking in Los Angeles has in fact been the prototypical attempt to create emancipatory and progressive culture Drawing from urban history and geography local news reporting and a wide range of film criticism James gives astute analyses of scores of films many of which are to be found only in archives He also looks at some of the most innovative moments in Hollywood revealing the full extent of the cross fertilization that occurred between the studio system and films created outside it Throughout he demonstrates that Los Angeles has been in the aesthetic and social vanguard in all cinematic periods from the Socialist cinemas of the early teens and 1930s to the

personal cinemas of psychic self investigation in the 1940s to attempts in the 1960s to revitalize the industry with the counterculture's utopian visions and to the 1970s when African Americans Asian Americans Latinos women gays and lesbians worked to create cinemas of their own James takes us up to the 1990s and beyond to explore new forms of art cinema that are now transforming the representation of Southern California's geography *Canadian Moving Picture Digest*, 1924

Medieval Mobilities Basil Arnould Price, Jane Elizabeth Bonsall, Meagan Khoury, 2023-01-01 This collection explores the intersection of gender and mobility across the Global Middle Ages Medieval Mobilities questions how medieval people texts images and ideas move across physiological geographical literary and spiritual boundaries In what ways do these movements afford new configurations of gender sexuality and being Enacting a dialogue between medieval studies feminist thought and queer theory Medieval Mobilities proposes that attending to the undulations of premodern gender and sexuality may help destabilize unstated assumptions about ways of being and loving in the Middle Ages This volume also brings together emergent and established scholars to challenge an increasingly static academy and instead envision a scholarly practice focused on intergenerational international and interdisciplinary collaboration Drawing upon wide range of primary sources and theoretical frameworks the resultant essays unsettle the imagined fixity of gender and propose alternative conceptualizations of embodiment identity and difference in the medieval world
