spirit of the early pioneers of Stephen F Austins Texas colony had their roots in a turbulent distant past From the early 1600s  
their courageous ancestors had pushed westward leaving the European shores to carve out a new nation from the wilderness  
They fled religious and political oppression in search of a better life in which freedom was of supreme importance Many  
came with tales of their former struggles in Londonderry Ireland during the great siege of terrible massacres and clan  
rivalries in the times of William Wallace and Robert the Bruce King of Scotland They vividly remembered the tribulations of  
Martin Luther and the deadly religious split with the Catholic Church More recently memories of their parents participation  
in the American Revolution of dramatic true life scenes such as depicted in the movie The Patriot filled their minds their  
fathers having ridden along side of the wily Swamp Fox Francis Marion These pioneers associated themselves with men like  
Travis Crockett Houston and Andrew Jackson Many of these early trailblazers were Scots Irish and German immigrants They  
were on a westward trek to grasp a special prize to seal Americas Manifest Destiny And that prize they sought was Texas  
From Jamestown to Texas is the story of these intrepid pioneers and their ancestors who cleared and farmed the land who  
fought the Indians battled the elements and carved out this wonderful country that we have today      *Scots Revised Reports*
