## **The Memory Singer:**

*Memory Songs: A Personal Journey Into the Music that Shaped the 90s* James Cook, 2018-05-17 This is the story of a music obsessed boy's journey from his bedroom in Hitchin to the heart of nineties London just as Britpop is about to explode. From James Cook's early encounters with pop's pioneers Revolver heard for the first time Led Zeppelin glimpsed on evening TV through an adolescence in which friendships are forged on a mutual love for the Velvet Underground to the high stakes gamble of moving to the metropolis the years between the assassination of John Lennon and Kurt Cobain's suicide are mapped in musical memories. Along the way we explore the diverse influences that fuelled the nineties guitar pop boom from John Barry to Bryan Ferry and follow James as he forms a band with his twin brother and releases a critically acclaimed debut album. More than a memoir *Memory Songs* stands as a testament to music's power over the imagination the way it punctuates our past and shapes our future. Woven through with meditations on the artists who defined the UK's last legendary scene it delivers a passionate analysis of the music that shaped a crucial moment in British cultural history.

Meanwhile other scholars have dedicated their lifelong research to the Mergui Archipelago central Sulawesi southwest Maluku and East Timor. Emerging from international collaboration the scholarship provided here seeks not only to safeguard and comprehend the uniqueness and evolving beauty of ancient sung narratives that are currently performed in the islands of Southeast Asia but also to defend their vitality in today's changing world. This collection of twelve essays is the most recent achievement of ongoing studies of performances by singers of tales and ritualists in contemporary socio cultural contexts by means of pioneering initiatives in the Digital Humanities multiple analytical approaches and expert use of our growing technical capacity to safeguard and explore Intangible Heritage. *The Rock-n-roll Singer's Survival Manual*, 1990-12 This is a thorough presentation of the basic elements of singing including vocal production training breathing posture and diet. *Sing, Memory* Makana Eyre, 2023-05-23 A Polish musician a Jewish conductor a secret choir and the rescue of a trove of music from the Sachsenhausen concentration camp On a cold October night in 1942 SS guards at the Sachsenhausen concentration camp violently disbanded a rehearsal of a secret Jewish choir led by conductor Rosebery d Arguto Many in the group did not live to see morning and those who survived the guards reprisal were deported to Auschwitz Birkenau just a few weeks later Only one of its members survived the Holocaust Yet their story survives thanks to Aleksander Kulisiewicz An amateur musician he was not Jewish but struck up an unlikely friendship with d Arguto in Sachsenhausen D Arguto tasked him with a mission to save the musical heritage of the victims of the Nazi camps In *Sing Memory* Makana Eyre recounts Kulisiewicz's extraordinary transformation from a Polish nationalist into a guardian of music and culture from the Nazi camps Aided by an eidetic memory Kulisiewicz was able to preserve for posterity not only his own songs about life at the camp but the music and poetry of prisoners from a range of national and cultural backgrounds They composed symphonies organized clandestine choirs arranged great pieces of music

by illustrious composers and gathered regularly over the course of the war to perform for one another. For many, music enabled them to resist, bear witness and maintain their humanity in some of the most brutal conditions imaginable. After the war, Kulisiewicz returned to Poland and assembled an archive of camp music which he went on to perform in more than a dozen countries. He dedicated the remainder of his life to the memory of the Nazi camps. Drawing on oral history and testimony as well as extensive archival research, Eyre tells this rich and affecting human story of musical resistance to the Nazi regime in full for the first time.

**Sharing Qualitative Research** Susan Gair, Ariella van Luyn, 2016-11-10 In an era of rapid technological change, are qualitative researchers taking advantage of new and innovative ways to gather, analyse and share community narratives? *Sharing Qualitative Research* presents innovative methods for harnessing creative storytelling methodologies and technologies that help to inspire and transform readers and future research. In exploring a range of collaborative and original social research approaches to addressing social problems, this text grapples with the difficulties of working with communities. It also offers strategies for working ethically with narratives while also challenging traditional, narrower definitions of what constitutes communities. The book is unique in its cross-disciplinary spectrum: community narratives, focus and showcase of arts-based and emerging digital technologies for working with communities. A timely collection, it will be of interest to interdisciplinary researchers, undergraduate and postgraduate students and practitioners in fields including anthropology, ethnography, cultural studies, community arts, literary studies, social work, health and education.

**Autobiographical Memory and the Self** Soljana Cili, Lusia Stopa, 2018-07-17 Autobiographical memory shapes our understanding of ourselves, guides our behaviour and helps us to develop and maintain relationships with others. The ways in which we interpret and narrate our memories have important implications for our psychological well-being and can sometimes contribute to the onset and maintenance of a variety of psychological disorders. *Autobiographical Memory and the Self: Relationship and Implications for Cognitive Behavioural Therapy* synthesises the growing cognitive, social, personality and clinical psychological literature on the memory-self relationship. It creates an interdisciplinary dialogue which explores autobiographical memory and its relevance for clinical practice, especially cognitive behavioural therapy (CBT). The authors propose a model for understanding the mechanisms of change involved in therapeutic interventions targeting negative or traumatic memories, whilst providing insights into recent debates and avenues for future research. *Autobiographical Memory and the Self* will be useful to clinicians and clinical trainees, researchers and psychology postgraduate students.

**A Beginning Singer's Guide** Richard Davis, 1998-09-10 *A Beginning Singer's Guide* is a vocal pedagogy with four practical uses. First, it can be used as a collateral text for studio voice lessons. The teacher can conserve time by assigning relevant reading in the book instead of making lengthy expositions during the lesson. Second, it can be used as a primary text for undergraduate vocal pedagogy classes. Many schools offer a vocal pedagogy class whose enrollment includes singers and future choral conductors. A special chapter for the future choral conductor containing methods and other aids should meet

the need for an all in one text for this class Third it can be used as a practical guide for new voice teachers A special chapter containing methods for new voice teachers and studio administration will be very useful to the new teacher of voice Fourth the book explores subjects not usually covered in music pedagogy books such as notes on working with a pianist improving memory common acting terms subtexting and methods for alleviating performance anxiety These important yet often disregarded areas further complement a singer s talent and skill The author does not espouse any particular method of singing instead he applies a universal scientific approach with the firm belief that singing can be enhanced through further musical knowledge The sequence of the book follows the natural sequence of learning to sing The book is rounded out with line art of the vocal mechanism musical examples tables outlining the musculature of singing practical forms information for the beginning teacher and a bibliography
