Value of a Life Janet Farmer-Selden, 2021-02-03 Value of a Life By Janet Farmer Selden This is a fine piece of work and reminds me of the importance of bearing witness History has a way of repeating itself when the real stories of tragedy are relegated to the annals of yesteryear It was informative emotional a few Kleenex s and colorful language were used The words construct and style relays the importance of advocacy to change systems I am reminded of how much of the burden for life and death decisions fall upon the family when the systems don t work hard enough or fast enough to not only allow folks to live their destiny but to receive basic necessities Heart breaking inspiring and motivating all in one tragic story I am fortified that the story is being told in such an impactful way Christiano Sosa Executive Director The Arc of Colorado In early August of 1974 the United States was reeling from the Watergate scandal and the eventual resignation of President Nixon It was also the heart of the civil rights movement for the developmentally disabled In a small town in Colorado a ten year old boy dies As so eloquently stated in The Denver Post opinion piece on August 12 1974 It is a tragedy that people suffer and die and no one notices So it was with Jules Farmer ten who died after he contracted shigellosis a dangerous strain of diarrhea with its running epidemic through the state run school Until parents finally could stand no more and began to expose problems at the state run facility This is Jules story the story of his struggle to live life in a society that found no value in the lives of people

with disabilities and even less value in their deaths It is a look at the value his life really had and what value came with his death It documents his parents struggle against the state and federal government their work with the local and state chapters of the Association of Retarded Citizens and the impact Jules life had on his family community and other residents in Ridge State Home in Colorado
