The Metropolis Of Tomorrow Hugh Ferriss:

The Metropolis of Tomorrow Hugh Ferriss, 2005-02-11 In 1916 New York City enacted zoning laws that mandated the building of set back structures so that light and air would be more freely admitted into the streets below This concept was first proposed by Louis Sullivan in his 1891 article The high building question inspired by William Le Baron Jenney s recently completed Manhattan building in Chicago Hugh Ferriss 1889 1962 American draftsman and architect studies architecture at Washington University in St Louis where the Beaux Arts school was favored Early in his career he worked as a draftsman in the office of Cass Gilbert until he became a freelance delineator In 1922 Ferriss took part in a series of zoning envelope studies that sought to comply with the earlier city legislation Such were the key ingredients that gave rise to this book In this book 59 stunning illustrations depict towering structures personal space wide avenues and rooftop parks features that now exist in many innovative densely populated urban landscapes Ferriss uses metaphors from nature that lend his text a poetic quality It is no wonder that the work inspired critics of the time to remark As a creative entity as a symbol of the American spirit it is superb Survey and as magically stirring as a prophecy Albert Guerard in Books With its eloquent commentary and powerful renderings this book is an indispensable resource for students architects and anyone else with an interest in American architecture Back cover *The Metropolis of Tomorrow* Hugh Ferriss, 1986 *The Metropolis of Tomorrow* Hugh Ferriss, 1929 **The Metropolis of Tomorrow.** Hugh Ferriss, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *The Metropolis of Tomorrow* Hugh Ferriss, 1929

The Metropolis of tomorrow ,1991 **American Abstract Expressionism** Anne MacPhee, David Thistlewood, 1993-01-01 The question of what kind of city we are trying to have is an urgent one as the world continues its dramatic urbanization Urban Visions presumes that an understanding of our urban experience is a prerequisite for envisioning what the city could be In assembling work by distinguished authors from different disciplines and countries Urban Visions offers a patient examination of what urban experience is and of the city s necessity with explicit and implicit propositions about what it could be The book is illustrated in full color **Urban Design for an Urban Century** Lance Jay Brown, David Dixon, 2014-05-27 This book offers a comprehensive introduction to urban design from a historical overview and basic principles to practical design concepts and strategies It discusses the demographic environmental economic and social

issues that influence the decision making and implementation processes of urban design The Second Edition has been fully revised to include thorough coverage of sustainability issues and to integrate new case studies into the core concepts discussed

The Exposed City Nadia Amoroso, 2010-04-30 There is a vast amount of information about a city which is invisible to the human eye crime levels transportation patterns cell phone use and air quality to name just a few If a city was able to be defined by these characteristics what form would it take How could it be mapped Nadia Amoroso tackles these questions by taking statistical urban data and exploring how they could be transformed into innovative new maps The unseen elements of the city are examined in groundbreaking images throughout the book which are complemented by interviews with Winy Maas and James Corner comments by Richard Saul Wurman and sections by the SENSEable City Lab group and Mark Aubin co founder of Google Earth
