business and beyond Power is shifting from large stable armies to loose bands of insurgents from corporate leviathans to nimble start ups and from presidential palaces to public squares But power is also changing becoming harder to use and easier to lose In The End of Power award winning columnist and former Foreign Policy editor Moises Naim illuminates the struggle between once dominant megaplayers and the new micropowers challenging them in every field of human endeavor Drawing on provocative original research and a lifetime of experience in global affairs Naim explains how the end of power is reconfiguring our world The End of Power will change the way you look at the world Bill Clinton Extraordinary George Soros Compelling and original Arianna Huffington A fascinating new perspective Naim makes eye opening connections Francis Fukuyama

**Knowledge Brokerage for Sustainable Development** André Martinuzzi, Michal Sedlacko, 2017-09-08 The menace of a post truth era challenges conventional policy making and science Instead of fighting an uphill battle against populist solutions those involved in both policy making and science have to find innovative ways to collaborate and make use of the vast amounts of knowledge that are already available Knowledge brokerage in this context is more than a simple question and answer game it is a process of co creating and re framing knowledge In addition Knowledge Brokerage for Sustainable Development has to deal with trade offs and ambiguities as well as world views cultures and the preferences of stakeholder groups This book is the first in depth exploration of how knowledge brokerage has the potential to help manage the challenges of sustainable development across political and scientific systems It presents a selection of innovative and practical tools to enhance the connectivity of research and policy making on sustainable development issues In doing so this book will be an essential publication in research and policy making It supports networking among the developers and users of knowledge brokerage systems and will make their experience better known to the different communities involved The book presents interviews with leading policymakers and researchers such as former EU Commissioner Franz Fischler Robert-Jan Smits Director General of Research and Innovation at the EC Uwe Schneidewind President of the Wuppertal Institute and Leida Rijnhout European Environmental Bureau It also provides insights into eleven EU funded projects dealing with different approaches of Knowledge Brokerage for Sustainable Development

Modular Systems for Energy and Fuel Recovery and Conversion Yatish T. Shah, 2019-06-28 Modular Systems for Energy and Fuel Recovery and Conversion surveys the benefits of the modular approach in the front end of the energy industry The book also outlines strategies for managing modular approaches for fossil renewable and nuclear energy resource recovery and conversion with the help of successful industrial examples The book points out that while the modular approach is most applicable for distributed and small scale energy systems it is also often used for parts of large scale centralized systems With the help of successful industrial examples of modular approaches for energy and fuel recovery and conversion the book points out the need for more balance between large scale centralized systems and small scale distributed systems to serve the energy needs of rural and isolated communities Coal oil natural gas hydrogen biomass waste nuclear geothermal solar wind and hydro energy are examined

showing that modular operations are very successfully used in all these components of the energy industry Aimed at academic researchers and industry professionals this book provides successful examples and analysis of the modular operation for energy and fuel recovery and conversion It is also a reference for those who are engaged in the development of modular systems for energy and fuel recovery and conversion

Europe and the Spectre of Post-Growth Society Piotr A. Świtalski, 2014-05-30 Europe has been going through its most serious crisis of values since the fall of communism In public discourse economic and social pressures have overshadowed the other dimensions of the crisis including societal values However the crisis of values would appear to be more than simply an effect of the recession Europeans have lost trust in democratic institutions at all levels European national and local Rising xenophobia and discrimination against minorities undermine the vitality of the European model of tolerance Europe is plagued by endemic corruption which costs it more than 100 billion annually triggering political instability Some believe that once Europe is back on the path of growth the crisis of values will disappear and that there will be a resurgence of faith in European integration But in the long term growth in Western societies may be impaired by serious headwinds resulting from demographic trends and rising inequalities and Europe may become the first post growth society European societies are already changing their traditional characteristics as a result of exposure to the effects of two global mega trends the empowerment of the individual and cosmopolitisation Can the European project be of relevance when addressing these challenges What role in this process can be played by the Council of Europe which is the embodiment of the idea that Europe is bigger than the European Union and the European agenda is richer than the economy and politics

The Once and Future Wesleyan Movement Bishop Scott J. Jones, 2016-11-15 Jones argues that several unique factors remain available to The United Methodist Church today from the period of rapid growth between 1800 and 1840 Drawing on the image of Loren Mead's Once and Future Church and Moises Naim's analysis in The End of Power Jones argues that a viable future for United Methodism is to recapture the dynamism of being a movement with many of the characteristics of early 19th century Methodism coming to the fore It will draw on three key works about Methodism in the first half of the 19th century Nathan Hatch's Democratization of American Christianity John Wigger's Taking Heaven by Storm and Gregory Schneider's The Way of the Cross Leads Home The book talks about how the Wesleyan form of church contains important resources for the future of Christianity It focuses on the United States and the first half is broadly applicable to all denominations in the Wesleyan tradition The last half of the book discusses obstacles that are currently preventing the United Methodist Church from achieving its potential It closes with a hopeful vision of what a renewed United Methodism might look like

**The Contested Status of Political Elites** Lars Vogel, Ronald Gebauer, Axel Salheiser, 2018-07-17 Contemporary Western societies are witnessing ground breaking social economic and political changes at an accelerating pace These changes are challenging the way democracy works and the role that political elites play in this system of government Using a theoretical and empirical approach this volume argues that

political elites are urged to develop new strategies in order to achieve interest aggregation to safeguard collective action and to maintain elite autonomy and stability The adaptive capacities of political elites are assessed through case studies comparative and longitudinal analyses of their social structure their recruitment patterns and their attitudes The book includes contributions from reputable scholars in the field of elite research and specialists on individual political systems across Europe and the US It provides an analytical framework demonstrating that political elites are inevitable and potentially able to respond successfully to varying challenges The book will be of key interest to scholars and students of political elites democracy comparative politics political participation and European Politics
