Rodríguez, 2022-08-08 In *A Kiss across the Ocean*, Richard T. Rodríguez examines the relationship between British post-punk musicians and their Latinx audiences in the United States since the 1980s. Melding memoir with cultural criticism, Rodríguez spotlights a host of influential bands and performers, including Siouxsie and the Banshees, Adam Ant, Bauhaus, Soft Cell, Frankie Goes to Hollywood, and Pet Shop Boys. He recounts these bands' importance for him and other Latinx kids and discusses their frequent identification with these bands' glamorous performance of difference. Whether it was Siouxsie Sioux drawing inspiration from Latinx contemporaries and cultural practices or how Soft Cell singer Marc Almond's lyrics were attuned to the vibrancy of queer Latinidad, Rodríguez shows how Latinx culture helped shape British post-punk. He traces the fandom networks that link these groups across space and time to illuminate how popular music establishes and facilitates intimate relations across the Atlantic. In so doing, he demonstrates how the music and styles that have come to define the 1980s hold significant sway over younger generations equally enthused by their matchlessly pleasurable and political reverberations. *Fire and Flood* Thomas Princen, 2025-05-20 How extreme events paradoxically sow the seeds of positive response and create opportunities for becoming adaptive to place. Throughout our history, we have dealt with extreme events, sometimes adaptively by coping or even thriving with them, and sometimes disastrously by repeatedly ignoring their lessons. Now extreme events and disasters are increasing in frequency and severity, and their signals are difficult to read. In *Fire and Flood*, Thomas Princen argues that the most useful signals may be those coming from fires and floods, both historically and today. This book looks to these past and present events to imagine and to construct a regenerative future. Extreme events are much more than just confirmation of climate change. Princen's in-depth investigation of disaster response, including our long-term societal response, goes beyond the harm and destruction, the cries for better prevention and protection, and the

simplistic formula that with mere awareness of extreme events the world will finally combat climate change We must learn to read extreme events as signals indicating how adaptive or maladaptive our patterns of extraction consumption settlement and transport are and more generally how sustainable and just our economies are Understanding these signals will allow us to become adaptive to place and plan for a future living with fires and floods **Joel Whitburn Presents Rock Tracks**

She loathed those that she considered to be bullies and took it upon herself to right perceived wrongs and she managed to do so in rather creative and messy ways As she was exacting her brand of justice upon abusive mates who crossed her path she was simultaneously seeking true love in her own awkward way Her search for her personal prince was sometimes humorous and other times tragic Let us just say that she was a romantically hopeful young lady with a massive chip on her shoulder and those who crossed her would soon learn that they would have been advised to be cool with Maddy **Super Gene**
