Upload you final file to the Canvas dropbox. No need to print anything. Good luck!

### Structure of lab report (100 points total)

- 1) **Scientific title (5 points):** Contains a few key words that describe the experiment and its purpose. In your title, include the name of your unknown microbe and the unknown ID NUMBER that the instructor assigned to you!
- 2) **Abstract (20 points):** No longer than 1 page in length, double spaced and no Shorter than 1/2 page double spaced. The abstract effectively summarize your entire lab report. Start your Abstract with a sentence describing what your "unknown microbe" project was about and what your unknown microbe was determined to be. Include a summary of importance of your unknown microbe and its characteristics/pathogenesis. Include a summary of any methodologies and experimental procedures used to determine what your unknown microbe was in 1 – 2 sentences. Brief summary of the important results you obtained from the tests you ran on your unknown microbe that determined what your unknown was. Include a concluding sentence. (For example: "I determined my unknown microbe to be *Staphylococcal aureus*, a Gram positive cocci bacteria, based on the selective and differential tests described in this report." Your abstract should not have any references since it should be in your own words.
- 3) **Introduction (20 points):** No longer than 2 page in length, double spaced and no shorter than 1/2 page double spaced. The Introduction should be at least 2 to 3 paragraphs. Describe the various stains, selective and differential media, and other tests (such as the catalase and oxidase) used to identify microbes. Please include a flow chart diagram in identifying unknown microbes, especially the ones we used in our lab. The Flow chart is part of the 2 page limit for the introduction. Things to keep in mind when writing the Intro : Paragraphs Structure:
  1. Paragraph Thesis
  2. Supporting statements and/ or literature examples
  3. Concluding/ Transitional sentence to next paragraph

### Staphylococcus Epidermidis Lab Report Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project

Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Staphylococcus Epidermidis Lab Report free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community.
