Based on a theory of empowered stakeholders, this bestselling text argues that the responsibility of a corporation is to create value broadly defined. The primary challenge for managers today is to balance the competing interests of the firm's stakeholders, understanding that what they expect today may not be what they will expect tomorrow. This tension is what makes CSR so complex and demanding, but it is also what makes CSR integral to the firm's strategy and day-to-day operations. In this new Sixth Edition, author David Chandler explores issues around COVID-19, the BLM movement, the supply chain crunch and the great resignation.

The X and Y of Buy Elizabeth Pace,2010-03-29 With wit deep insight and plenty of humor gained from her observations of male and female purchasing patterns over the years veteran branding marketing and salesperson Elizabeth Pace shows readers how to increase their revenue and sell more effectively Pace explains that you

don't need to memorize complicated customer behavioral patterns or try to profile every individual client to know how to sell. The key she says can be found in the differences between genders. Based on the author's own fascination with what makes customers tick as well as neuroscience and MRI studies on the different stimuli men's and women's brains respond to, The X and Y of Buy teaches readers how to become sales chameleons able to adopt successful sales strategies when communicating uniquely with men and women. The decision to buy is based on what captures your prospects' attention, ignites their emotion and provides value. Department stores know how to appeal to men's easy in, easy out shopping patterns while also appealing to women's preference for a more complex sensory shopping experience. Consider the placement of men's suits right up front by a door versus women's interwoven with a treasure trove of other must-have items. As a salesperson, you have similar tools and tactics at your disposal. While not all men and women are the same, this must-read for salespeople at all levels of business reveals how appealing to the different things men and women crave can increase your effectiveness with the vast majority of your gender target market.
