The Power of Habit Charles Duhigg, 2012-02-28 Groundbreaking new research shows that by grabbing hold of the three step loop all habits form in our brains cue routine reward we can change them giving us the power to take control over our lives We are what we repeatedly do said Aristotle Excellence then is not an act but a habit On the most basic level a habit is a simple neurological loop there is a cue my mouth feels gross a routine hello Crest and a reward ahhh minty fresh

Understanding this loop is the key to exercising regularly or becoming more productive at work or tapping into reserves of creativity Marketers too are learning how to exploit these loops to boost sales CEOs and coaches are using them to change how employees work and athletes compete As this book shows tweaking even one habit as long as it s the right one can have staggering effects In *The Power of Habit* award winning New York Times business reporter Charles Duhigg takes readers inside labs where brain scans record habits as they flourish and die classrooms in which students learn to boost their willpower and boardrooms where executives dream up products that tug on our deepest habitual urges Full of compelling narratives that will appeal to fans of Michael Lewis Jonah Lehrer and Chip and Dan Heath *The Power of Habit* contains an exhilarating argument our most basic actions are not the product of well considered decision making but of habits we often do not realize exist By harnessing this new science we can transform our lives [Summary: The Power of Habit](#)

Karen Watkins, 2012-07-30 ABOUT THE BOOK Charles Duhigg was a reporter in Iraq a decade ago when he heard about an army major who was analyzing videotapes of riots He wanted to see if he could detect any patterns that might help him stop the riots before they began He did First a small crowd would gather in a plaza Within a few hours they would begin to chant angry slogans Spectators would show up Food vendors would arrive Time would pass The chanting would get louder More time would pass The spectators would remain in a relatively small space except around dusk when they got hungry They d buy some food then return to their original spot That was the pattern for most but there were some who would march into the middle of the crowd back out to the edge back to the middle Those were the troublemakers One would throw a bottle another would throw a rock Within 15 minutes there would be a full scale riot The major told

Duhigg that after observing this pattern he scheduled a meeting with the town's mayor. He made what must have seemed like an odd request: Would it be possible for the police to keep food vendors out of the plazas? The mayor said yes. A few weeks later a small crowd gathered near a plaza. As the afternoon wore on they began chanting angry slogans. Spectators showed up. Time passed. The chanting got louder. More time passed. Dusk fell. But this time there were no food vendors to feed the crowd. Some went home to eat. Some went to restaurants. By 8PM nearly everyone was gone. The riot never happened. Duhigg asked the mayor what made him realize that something as simple as getting rid of the food vendors would end the riots. The mayor said that the U.S. military had taught all about habits: how they're formed, how they're broken. The U.S. military, he said, was one of the biggest habit formation experiments in history, and that understanding habits was the most important thing he'd learned in the army. Duhigg became intrigued by habits and their power. That's what this book is about, he writes. Changing habits isn't necessarily quick or easy. But it is possible. And now we know how.

EXCERPT FROM THE BOOK

How do you sell a record that people hate? That was the problem for Steve Bartels, promotion executive at Arista Records. The song was "Hey Ya" by OutKast. He thought it would be a sure hit. He convinced radio stations to play it, but listeners hated it so much they turned the dial. The problem was "Hey Ya" didn't sound like other songs. People want to listen to their favorite songs or songs that sound like their favorite songs. But Bartels wasn't ready to give up.

III

During World War II, meat was scarce, but organ meat was plentiful. The problem was getting housewives to serve it. They weren't familiar with it. The solution was to make it seem familiar by camouflaging it in everyday garb. The government sent out mailers telling women their husbands would cheer for steak and kidney pie, which would contain a little steak and a lot of kidney. Butchers gave out recipes for meatloaf made with liver. Organ consumption rose by 33% during the war.

IV

Arista decided the secret to making "Hey Ya" a hit was to make it familiar. To do that, they sandwiched it between sticky songs—songs that keep the listener listening. Some songs are sticky because people like them. Some are sticky even though people hate them. Men say they hate Celine Dion, but they don't switch the station when her songs come on. It worked. People got used to "Hey Ya." Then they started to crave it. It sold more than 5.5 million records and won a Grammy.
