A Study Guide for Jerry Spinelli's "Stargirl" Gale, Cengage Learning, 2016-07-12 A Study Guide for Jerry Spinelli's *Stargirl* excerpted from Gale's acclaimed *Novels for Students*. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust *Novels for Students* for all of your research needs. **Stargirl**, 2011-05-27 [Integrating Literature in the Content Areas](#) Sharon Kane, 2017-05-12 This practical, accessible resource will help future and practicing teachers integrate literature into their middle school or high school classrooms while also addressing content area standards and improving the literacy skills of their students. Two introductory chapters are followed by five chapters that each cover a different genre: Chapter 3 Informational Books, Chapter 4 Fiction, Chapter 5 Biography, Autobiography, and Memoir, Chapter 6 Poetry, and Chapter 7 How to and Hands on Books. Each genre chapter consists of four parts: Part 1 Discusses the genre and how content area teachers can use books within that genre to further content learning and enhance literacy skills; Part 2 Offers hands-on instructional strategies and activities using literature with activities for use in a variety of disciplines; Part 3 Presents individual author studies, three or four per chapter, with bibliographies and guidelines for using the authors' books in content area courses; Part 4 Features an annotated bibliography of specially selected children and young adult literature for that genre, organized by content area. The annotations provide information about the book which can be used to prepare booktalks and teaching ideas for using in a specific content area. Altogether, these sections contain more than 600 annotated entries, tabbed by subject area, including art, English language arts, languages and culture, math, and technology, music, PE, health, science, and social studies, history. **Stargirl**, 2011-05-27 **Essential Questions in Adolescent Literacy** Jill Lewis, 2009-05-04 In each chapter of this unique volume, an exemplary teacher collaborates with a prominent scholar to present real-world strategies for putting literacy research to work in grades 5-12. These lively dialogues tackle key questions in adolescent literacy, including issues of motivation, critical thinking skills, content area writing, differentiated instruction, assessment, English language learning, and technology. Suggestions for incorporating adolescents' out-of-school literacies and working with reading specialists and coaches show how to build connections between the classroom and wider communities. In-depth portraits of challenges and successes in the classroom, practical instructional tips, and stimulating questions for reflection make the book a valuable resource for inservice and preservice teachers. [Literacy Instruction for Adolescents](#) Karen D. Wood, William E. Blanton, 2009-03-12 Thorough and accessible, this professional resource and text shows how the latest research in adolescent literacy can be translated into effective practice in middle and high school classrooms. Leading authorities discuss findings on the adolescent learner, addressing such essential topics as comprehension, content area literacy, differentiated instruction, gender differences in literacy learning, and English language learners. With a focus on evidence-based methods, coverage ranges from techniques for building digital literacy and comprehension skills to strategies

for flexible grouping and writing instruction Ideal for courses in adolescent literacy each chapter includes guiding questions discussion questions and classroom examples Integrating Literature in the Disciplines Sharon Kane,2020-04-22 The Second Edition of this practical and comprehensive resource offers a multitude of ways to incorporate literature into teaching and learning across a range of disciplines Future and practicing teachers librarians instructional coaches and school leaders can implement the ideas within this text to improve the literacy skills and knowledge of students while also addressing standards and curricular goals of various content areas The new edition recognizes a paradigm shift from content areas to disciplines reflecting the specific ways reading and writing are used in different fields of study Updated with current research and practices the volume recommends and evaluates books in different genres and categories with chapters on informational books fiction biography and memoir poetry and hands on and how to books For every category Kane provides a rationale instructional strategies and author studies as well as lists and descriptions of books related to curricular areas With a wealth of activities and new BookTalks this Second Edition is greatly revised and features expanded attention to technology digital learning diversity and culture Using this text will create opportunities for deep discussions and will stimulate students interest and motivation to read and learn Integrating Literature in the Disciplines helps educators identify books that fit with any subject to enhance the creative and affective dimensions of school life encourages interdisciplinary connections and increases the depth and relevance of lessons It is ideal for professional development and serves as a tool for Readers

Advisory to match books with readers throughout the school day and beyond **Collaborating to Support All Learners in English, Social Studies, and Humanities** Faye Brownlie,Leyton Schnellert,2009-10-23 How can we help students develop the thinking skills they need to be successful learners How does this relate to deep learning of important concepts How can we engage and support diverse learners in inclusive classrooms where they develop understanding and thinking skills In this book Faye and Leyton explore these questions and offer classroom examples to help busy teachers develop communities where all students learn This book is written by two experienced educators who offer a welcoming and can do approach to the big ideas in education today In this book you will find insightful ways to teach diverse learners e g literature and information circles open ended strategies cooperative learning inquiry curriculum design frameworks e g universal design for learning UDL and backward design assessment for of and as learning lessons to help students develop deep learning and thinking skills in English Social Studies and Humanities excellent examples of theory and practice made accessible real school examples of collaboration teachers working together to create better learning opportunities for their students
