The software can be used for retrieving data logs and for monitoring the state of the unit on real time.

Settings

When the ".exe"- file has been downloaded it can be executed and the StarView software will be installed on your computer - E.g. C:\Program files\StarView.

Connection

Connect to the Star Cool unit

In order to establish a connection between the Star Cool unit and the laptop a retriever cable is needed. The unit end must have a 5 pin connector and the pc end must have a 9 pole SUB D connector.

Newer laptops are not equipped with a serial port. If this is the case a "USB to serial port"- adapter or a retriever cable with a USB plug (SC item no: 818575D) must be used.

Please refer to the user manual for the installation of the adapter before proceeding with these instructions.

The controller of the Star Cool unit must run either on main power or in battery mode in order to communicate with the StarView software. Refer to the operation and service manual on how to switch on the unit.

If you have got further problems to connect to the unit refer to "File/Properties" and "Device/Connect" in this user guide.
