Pennsylvania. State Board of Education,1963 **Conflict, Competition, or Cooperation?** Douglas M. Abrams,1993-10-12
This book analyzes the organizational interface between the public and higher education sectors as policy leaders experiment
with cooperative strategies to optimize legislative appropriations compete for organizational domain in vocational education
work together to manage a joint crisis posed by a popular tax revolt and use the symbols of cooperation to build libraries in
higher education Focusing on the state of Utah this micro analysis of political relationships between policy elites as
conditioned by the organization rank and file illuminates the political culture of upper echelon policymaking in education
focusing on the complex fabric of interests and contingencies that policymakers perceive and respond to in specific political
circumstances Abrams provides an in depth policy specific case in point of the political implications of a more competent
state government presence in our public life He draws perspectives from several research traditions in the social sciences to
explain the dynamics of organizational competition and cooperation The resulting analysis of state level education politics is
provocative and unconventional and heightens our understanding of why the two education sectors must compete and how
they can cooperate *Bulletin - Bureau of Education* United States. Bureau of Education,1927 *Federal Register*
