It contains five patient rooms, a nurses station, a supervisor's office, two conference rooms, a nurses lounge, and a waiting room with an elevator. The following patients are seeking treatment in Red Rock Canyon Medical Center: Carmen Gonzalez. This older Hispanic female presents with an infected leg that has become gangrenous. She has Type 2 diabetes mellitus as well as complications of congestive heart failure and osteomyelitis. David Ruskin. Following a car/bicycle accident, this young adult African American male is admitted with a possible closed head injury and a badly fractured right humerus. He undergoes an open reduction and internal fixations of the right humerus. Sally Begay. This Native American woman enters the hospital and is initially suspected of having a Hanta virus infection. She has a confirmed diagnosis of bacterial lung infection. This client's complications include chronic obstructive pulmonary disease and inactive tuberculosis. Ira Bradley. Ira is a Caucasian adult male with late stage HIV disease who is admitted for an opportunistic respiratory infection. He has complications of oral fungal infection, malnutrition, and wasting. Andrea Wang. This young Asian female entered the hospital after a diving accident in which T6 is crushed with partial transection of the spinal cord.
