Virtual Families Strategy Guide:

Using Apps for Learning Across the Curriculum Richard Beach, David O'Brien, 2014-10-17 How can apps be used to foster learning with literacy across the curriculum This book offers both a theoretical framework for considering app affordances and practical ways to use apps to build students disciplinary literacies and to foster a wide range of literacy practices Using Apps for Learning Across the Curriculum presents a wide range of different apps and also assesses their value features methods for and apps related to planning instruction and assessing student learning identifies favorite apps whose affordances are most likely to foster certain disciplinary literacies includes resources and apps for professional development provides examples of student learning in the classroom A website www.usingipads.pbworks.com with resources for teaching and further reading for each chapter a link to a blog for continuing conversations about topics in the book

appsforlearningliteracies.com and more enhance the usefulness of the book **Working with Families: A Guide for Health and Human Services Professionals, Second Edition** Patricia Spindel, 2020-04-28 In its second edition this accessible health and human services manual offers a critical overview of the issues and challenges that families face and provides practical strategies for promoting resilience and positive family functioning Through clinical and sociological perspectives and employing a strengths based approach this revised edition provides a broad overview of factors affecting Canadian families such as diverse family structures healthy and unhealthy forms of communication family culture and beliefs couple dynamics addiction and developmental and psychiatric disabilities Covering a wide range of topics the author draws special attention to LGBTQ and military families the effects of violence and trauma and professional ethics and self care An indispensable resource for students and practitioners of social services child and youth work and early childhood education the revised edition of Working with Families Second Edition reflects current research and practices in the field and features updated statistics and accessible language Families at Play Sinem Siyahhan, Elisabeth Gee, 2024-07-02 How family video

game play promotes intergenerational communication connection and learning Video games have a bad reputation in the mainstream media They are blamed for encouraging social isolation promoting violence and creating tensions between parents and children In this book Sinem Siyahhan and Elisabeth Gee offer another view They show that video games can be a tool for connection not isolation creating opportunities for families to communicate and learn together Like smartphones Skype and social media games help families stay connected Siyahhan and Gee offer examples One family treats video game playing as a regular and valued activity and bonds over Halo A father tries to pass on his enthusiasm for Star Wars by playing Lego Star Wars with his young son Families express their feelings and share their experiences and understanding of the world through playing video games like The Sims Civilization and Minecraft Some video games are designed specifically to support family conversations around such real world issues and sensitive topics as bullying and peer pressure Siyahhan and Gee draw on a decade of research to look at how learning and teaching take place when families play video games together

With video games they argue the parents are not necessarily the teachers and experts all family members can be both teachers and learners They suggest video games can help families form develop and sustain their learning culture as well as develop skills that are valued in the twenty first century workplace Educators and game designers should take note
