(Hornbill) (Chapter - 3) (Poem - 1) (The Laburnum Top) (Important Questions)  
(Class - XI)

## Question 1:

How does the poet interpret the tree?

### Answer 1:

The leaves of the Laburnum tree turn yellow in the month of September as it is the autumn season. Immediately after this the dry leaves fall down and then the arrival of new leaves starts. As this tree and its leaves are poisonous, so no bird comes so quickly on it and taking advantage of this, the goldfinch builds its nest on it.

## Question 2:

How do the babies of goldfinch react when it reaches tree with food grain?

### Answer 2:

Her babies chirp with joy. Suddenly there is a lot of noise in the tree and the poet has compared this noise to the engine of the machine. Before her arrival, there is silence on the tree and the babies are waiting for their mother. The children jump with delight after the arrival of the mother.

## Question 3:

Could there be some other reason for the goldfinch to nest on this tree other than its poisonousness?

### Answer 3:

Goldfinch is also yellow in appearance and the color of the tree is also yellow. It feels safest for itself and children here because no one can see it easily and can't harm due to the same color. The bird can hide itself easily in laburnum tree in any unsafe activity.
