individual's blue star on the family service flag. Not a symbol of mourning, the gold star represented the family's pride and the honor and glory accorded to that individual for making the supreme sacrifice in defense of the American's freedom. Soon the term gold star mother came to be used to identify and honor women who had lost a son or daughter in wartime military service. Following the war, as the nation focused its attention on those veterans who had returned whole in mind and body, gold star mothers served as a constant reminder of the true cost of war. In 1928 a group of these women formed American Gold Star Mothers Inc., an organization created to honor those who had died by being of service to veterans and their families in need, supporting gold star families and caring for veterans who had returned with physical, emotional, and psychological wounds. From that humble beginning, American Gold Star Mothers Inc. has become an icon of national service, opening its membership time and again to gold star mothers of later wars and conflicts, including Iraq and Afghanistan. Their amazing legacy of service is an important yet largely unknown chapter in American history. This book presents the story of gold star mothers in America and the first comprehensive history of American Gold Star Mothers Inc. drawn from nearly a century of archival materials. The fascinating story of the strong women who honored their fallen sons and daughters by dedicating themselves to the service of veterans and peace is both compelling and inspiring.

Asian Sport Celebrity Koji

Kobayashi, Younghun Cho, 2021-03-30 What does the Asian mean in Asian sport celebrity? With a collection of nine essays on Asian sport celebrities variously associated with Australia, Belgium, China, Japan, New Zealand, North Korea, Philippines, South Korea, Taiwan, and the United States, this book offers a comprehensive understanding of the multi-faceted construction of what it means to be Asian from the perspectives of race, ethnicity, and regionality. Sport celebrity as a modern invention is disseminated from the West to the rest of the globe, including Asia, and so are its functions of symbolizing particular values, desires, and personalities idolized and idealized within their respective societies. While Asian athletes were historically depicted as weak, fragile, and biologically unsuited to modern sport, the emergence of more than a few world-class Asian athletes in the twenty-first century demands an in-depth inquiry into the relationship between sport celebrity and the representation of Asia. This book is therefore essential for those interested in a range of socio-cultural issues including globalization, transnationalism, migration, modernity, post-coloniality, gender, politics, spectacle, citizenship, Orientalism, and nationalism within and beyond Asia. It was originally published as a special issue of *The International Journal of the History of Sport*.
