That Thin Line Of Blood Del Toro Horror:

Postmodern Vampires Sorcha Ní Fhlainn, 2019-04-25 *Postmodern Vampires* Film Fiction and Popular Culture is the first major study to focus on American cultural history from the vampire's point of view. Beginning in 1968 Ní Fhlainn argues that vampires move from the margins to the centre of popular culture as representatives of the anxieties and aspirations of their age. Mapping their literary and screen evolution on to the American Presidency from Richard Nixon to Donald Trump, this essential critical study chronicles the vampire's blood ties to distinct socio-political movements and cultural decades in the late twentieth and early twenty-first centuries. Through case studies of key texts including *Interview with the Vampire*, *The Lost Boys*, *Blade*, *Twilight*, *Let Me In*, *True Blood* and numerous adaptations of *Dracula*, this book reveals how vampires continue to be exemplary barometers of political and historical change in the American imagination. It is essential reading for scholars and students in Gothic and Horror Studies, Film Studies and American Studies and for anyone interested in the articulate undead.

100 American Horror Films Barry Keith Grant, 2022-03-24 A well-plotted survey. *Total Film*. In *100 American Horror Films*, Barry Keith Grant presents entries on 100 films from one of American cinema's longest-standing most diverse and most popular genres, representing its rich history from the silent era (D.W. Griffith's *The Avenging Conscience* of 1915) to contemporary productions (Jordan Peele's 2017 *Get Out*). In his introduction, Grant provides an overview of the genre's history, a context for the films addressed in the individual entries, and discusses the specific relations between American culture and horror. All of the entries are informed by the question of what makes the specific film being discussed a horror film; the importance of its place within the history of the genre and where relevant, the film is also contextualized within specifically American culture and history. Each entry also considers the film's most salient textual features, provides important insight into its production, and offers both established and original critical insight and interpretation. The 100 films selected for inclusion represent the broadest historical range and are drawn from every decade of American film-making, from major and minor studios, examples of the different types or subgenres of horror such as psychological thriller, monster, terror, gothic horror, home invasion, torture, porn, and parody, as well as the different types of horror monsters including werewolves, vampires, zombies, mummies, mutants, ghosts, and serial killers.
