Breen, Paul

The Accidental Teacher English Edition:

The Accidental Teacher Eric Mandel, 2009-10-28 The Accidental Teacher is a humorous and provocative account of the author's experience teaching English in a California public high school with absolutely no qualifications, training or previous experience. Equal parts McCourts Teacher Man and Kesey's Cuckoo's Nest with a dash of Sedaris and a shot of Hunter Thompson, the story follows Mr Mandel as he muddles through his first year mangling metaphors and alienating administrators while attempting to engage a very difficult group of teenagers. From his outsider's perspective, Mr Mandel provides pointed commentaries on the troubling issues facing public education and poignant accounts of his students' lives and his own personal journey. Frequent digressions offer literary allusions from the subtle to the ludicrous. The author displays a wry sense of humor as he struggles to counter administrative absurdities, to appease his own Nurse Ratchet and to compensate for his own deficiencies. The Accidental Teacher is certain to entertain and interest anyone who has taught, wants to teach, cares about public education or dreams of changing careers late in life.

The Accidental Teacher Annie Lubliner Lehmann, 2009-06-02 A mother's honest, unvarnished and touching memoir about the life lessons she learned from a son with autism.

The Western Teacher, 1912 **Mobile Teachers, Teacher Identity and International Schooling** Ruth Arber, Jill Blackmore, Athena Vongalis-Macrow, 2015-01-19 Mobile Teachers Teacher Identity and International Schooling focuses on the increased mobility of teachers and curriculum and what it means for the expansion of international schooling. In the early 21st century, educational institutions have been transformed by technological innovation and global interconnectivity. The demographic, ideological, economic and cultural flows that integrate local and global interconnections have consequences for the ways in which educational policy theories and practice can be

understood and take place locally The everyday lives of practitioners parents and students the institutions in which they are educated and work and the sociocultural and ideological contexts in which they work are all consequently changing The manifestation of these changes as evident in the work and lives of teachers within specific cultural contexts and education systems in their implications for educational theory and methodology and their consequences for policy programs practice and research in education are the focus of this book This book explores the mobility of curriculum pedagogies ideas and people that represent and mediate the impact of Global uneven flows and movements through in and for school education and the concepts and practices which frame that transformation The particular focus of the book is on how these flows inform the ways individuals negotiate their identities cultures and languages in different national and educational contexts Education systems and the educational experiences offered by schools are being reconfigured due to multiple pressures What do these moves to mobilise and to work transnationally mean in terms of educational provision possibilities and practice

Handbook on Comparative Education Alexander W. Wiseman, Emily W. Anderson, Lisa Damaschke-Deitrick, Ericka Galegher, Nino Dzotsenidze, Maureen Park, 2025-04-09 Compiling insights from leading scholars across the globe this cutting edge Handbook presents an overview of comparative education It crucially distinguishes the field from other subdisciplines of educational studies addressing key areas of debate within both scholarship and professional practice **Teacher Narrative as Critical Inquiry** Joy S. Ritchie, David E. Wilson, 2000 Research on teacher learning has too often excluded personal development in considering professional development This timely book argues that the development of a professional identity is inextricable from personal identity It suggests that when teachers are given the opportunity to compose their own stories of learning within a supportive community they can then begin to compose new narratives of identity and practice This book is a critical tool for educators seeking to refine their teaching practice and author their own development *Teacher Narratives from the Eikaiwa Classroom: Moving Beyond "McEnglish"*, 2020-01-12 *Teacher Narratives from the Eikaiwa Classroom Moving Beyond McEnglish* Edited by Daniel Hooper and Natasha Hashimoto This book includes 16 chapters written by current and former eikaiwa English conversation school teachers to illustrate a complexity within the eikaiwa profession that has been thus far largely ignored Through teacher narratives the authors explore the unique and often problematic world of eikaiwa to present a counter narrative to what the editors regard as blanket stereotyping of a multifaceted and evolving teaching context Eikaiwa schools are found in virtually every city and town in Japan They provide conversation and test preparation classes for learners of all ages Those attending eikaiwa may be looking to prepare for an overseas holiday or work placement achieve a required TOEIC score for their company or simply enjoy a new hobby and socialise with people from different cultures and backgrounds Eikaiwa teachers often need to negotiate conflicting demands from students parents management and society at large Furthermore opportunities for professional development are scarce and research on this context is virtually non existent Despite the massive scale of the

eikaiwa industry and the varied roles that teachers are required to fulfil within it expatriate and ELT communities have also tended to stigmatise the work of eikaiwa teachers as being simplistic and uniform As a result many former eikaiwa teachers choose to forget their eikaiwa past and the way it shaped them as professionals This volume provides an important opportunity for eikaiwa teachers to share their stories and for the editors to present a coherent and convincing case for the value that the experiences of working in English conversation schools has for our understanding of teaching and learning languages
