The Americans Chapter 3:

Book 1-book 4, chapter 3 Adam Smith,1904 The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD,2010-06-10 This book The State of the American Mind Stupor and Pathetic Docility Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were

great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

Immigration and the Remaking of Black America Tod G. Hamilton, 2019-05-15 Winner of the 2020 Otis Dudley Duncan Award for Outstanding Scholarship in Social Demography Honorable Mention for the 2020 Thomas and Znaniecki Award from the International Migration Section of the American Sociological Association Over the last four decades immigration from the Caribbean and sub Saharan Africa to the U S has increased rapidly In several states African immigrants are now major drivers of growth in the black population While social scientists and commentators have noted that these black immigrants social and economic outcomes often differ from those of their native born counterparts few studies have carefully analyzed the mechanisms that produce these disparities In *Immigration and the Remaking of Black America* sociologist and demographer Tod Hamilton shows how immigration is reshaping black America He weaves together interdisciplinary scholarship with new data to enhance our understanding of the causes of socioeconomic stratification among both the native born and newcomers Hamilton demonstrates that immigration from the Caribbean and sub Saharan Africa is driven by selective migration meaning that newcomers from these countries tend to have higher educational attainment than those who stay behind As a result they arrive in the U S with some advantages over native born blacks and in some cases over whites He also shows the importance of historical context prior to the Civil Rights Movement black immigrants socioeconomic outcomes resembled native born blacks much more closely regardless of their educational attainment in their country of origin Today however certain groups of black immigrants have better outcomes than native born black Americans such as lower unemployment rates and higher rates of homeownership in part because they immigrated at a time of expanding opportunities for minorities and women in general Hamilton further finds that rates of marriage and labor force participation among native born blacks that move away from their birth states resemble those of many black immigrants suggesting that some disparities within the black population stem from processes associated with migration rather than from nativity alone Hamilton argues that failing to account for this diversity among the black population can lead to incorrect estimates of the social progress made by black Americans and the persistence of racism and discrimination He calls for future research on racial inequality to disaggregate different black populations By richly detailing the changing nature of black America *Immigration and the Remaking of Black America* helps scholars and policymakers to better understand the complexity of racial disparities in the twenty first century
