from McGrath Dr Amy Orr Ewing Honorary Lecturer School of Divinity University of Aberdeen There has long been a desperate need for a thorough and wide ranging introduction to Christian Apologetics not least as this branch of Christian thought and theology has become increasingly active and important in recent years Alister McGrath's Christian Apologetics An Introduction fills this gap brilliantly All in all this is a much needed and incredibly important book one that McGrath given his wide experience of writing and teaching in apologetics is almost uniquely qualified to write Dr Andy Bannister Adjunct Professor of Apologetics Wycliffe College University of Toronto

Ecological Rationality Peter M. Todd, Gerd Gigerenzer, 2012-04-10 More information is always better and full information is best More computation is always better and optimization is best More is better ideals such as these have long shaped our vision of rationality Yet humans and other animals typically rely on simple heuristics to solve adaptive problems focusing on one or a few important cues and ignoring the rest and shortcutting computation rather than striving for as much as possible In this book we argue that in an uncertain world more information and computation are not always better and we ask when and why less can be more The answers to these questions constitute the idea of ecological rationality how we are able to achieve intelligence in the world by using simple heuristics matched to the environments we face exploiting the structures inherent in our physical biological social and cultural surroundings
