The Ends of Meter in Modern Japanese Poetry Scott Mehl, 2022-01-15 In *The Ends of Meter in Modern Japanese Poetry*, Scott Mehl analyzes the complex response of Meiji era Japanese poets and readers to the challenge introduced by European verse and the resulting crisis in Japanese poetry Amidst fierce competition for literary prestige on the national and international stage, poets and critics at the time recognized that the character of Japanese poetic culture was undergoing a fundamental transformation and the stakes were high the future of modern Japanese verse Mehl documents the creation of new Japanese

poetic forms tracing the first invention of Japanese free verse and its subsequent disappearance He examines the impact of the acclaimed and reviled shintaishi a new poetic form invented for translating European language verse and eventually supplanted by the reintroduction of free verse as a Western import The Ends of Meter in Modern Japanese Poetry draws on materials written in German Spanish English and French recreating the global poetry culture within which the most ambitious Meiji era Japanese poets vied for position **Uniquely you** Bertrand Tchoumi,2025-07-28T00:00:00Z Through these pages filled with images illustrating the beauty genius and pride of the peoples of Africa the author treats us to a text whose words enrich support and affirm the cultural identities of Black children A true treasure this book overflows with positive and motivating messages to show children the unlimited future ahead of them **Living in Time** Albert Gelpi,1998-02-19 The Oxford poets of the 1930s W H Auden C Day Lewis Stephen Spender and Louis MacNeice represented the first concerted British challenge to the domination of twentieth century poetry by the innovations of American modernists such as Ezra Pound and William Carlos Williams Known for their radical politics and aesthetic conservatism the Auden Generation has come to loom large in our map of twentieth century literary history Yet Auden s voluble domination of the group in its brief period of association and Auden s sway with critics ever since has made it difficult to hear the others on their own terms and in their own distinct voices Here rendered in eloquent prose by one of our most distinguished critics of modern poetry is the first full length study of the poetry of C Day Lewis a book that introduces the reader to a profoundly revealing and beautifully wrought record of his poetry against the cultural and literary ferment of this century Albert Gelpi explores in three expansive sections the major periods of the poet s development beginning with the emergence of Day Lewis in the thirties as the most radical of the Oxford poets An artist who sought through poetry a way of living in time without traditional religious assurances Day Lewis went further than his friends in seeking to forge a revolutionary poetry out of his commitment to Marxism When Stalinism led to his resignation from the Communist Party Day Lewis in the forties went on to shape a rich fiercely perceptive poetry out of the convergence of the wartime crisis with the explosive events of his own inner life intensified by the erotics of a decade long affair Returning to his Irish roots and meditating on the persistent tension between agnosticism and faith in the work of his third and final period Day Lewis wrote some of the most moving poems in the language about mortality and dying the limits and possibilities of human striving Through the traumatic changes of his life C Day Lewis came increasingly to depend on the intricacies of poetry itself as a way of living in time His abiding belief in the psychological and moral functions of poetry impelled him in his critical writings and in his own poetic practice to delineate a modern poetics that presents an effective alternative to the elitist experimentation associated with Modernism This vital revisionist reading of Day Lewis demonstrates that much of his best work was written after the thirties and establishes him as one of the most significant and accomplished British poets of the modern period Investment Efficiency in a Socialist Economy Henryk Fisz,2013-10-22 Investment Efficiency in a Socialist Economy compiles results of research

Beowulf as Children's Literature Bruce Gilchrist, Britt Mize, 2021-10-01 The single largest category of Beowulf representation and adaptation outside of direct translation of the poem is children s literature Over the past century and a half more than 150 new versions of Beowulf directed to child and teen audiences have appeared in English and in many other languages In this collection of original essays Bruce Gilchrist and Britt Mize examine the history and processes of remaking Beowulf for young readers Inventive in their manipulations of story tone and genre these adaptations require their authors to make countless decisions about what to include exclude emphasize de emphasize and adjust This volume considers the many forms of children s literature focusing primarily on picture books illustrated storybooks and youth novels but taking account also of curricular aids illustrated full translations of the poem and songs Contributors address issues of gender historical context war and violence techniques of narration education and nationalism investigating both the historical and theoretical dimensions of bringing Beowulf to child audiences Technical Translations, 1965-04 The History and Development of Nomography Harold Ainsley Evesham, 2010 Reprint Originally published as the author s thesis Ph D University of London 1982 **American Machinist**, 1914 *The Intonation of Interrogation in Palermo Italian* Martine Grice, 2017-10-10 In *Palermo Italian* yes no interrogatives if the last syllable of a phrase is unstressed the nuclear pitch contour is rising falling whereas if it is stressed the contour is simply rising Such context dependent variation cannot be adequately accounted for within a British style approach to intonation By contrast autosegmental pitch accent studies of intonation where nuclear pitch configurations are expressed in terms of H igh and L ow tones are shown to offer the flexibility necessary to do so These tones are incorporated into a hierarchical structure in which they have either an accentual or a primarily delimitative function In the former case tones are part of a Pitch Accent which has an association to a syllable in the latter case tones are associated to nodes representing higher prosodic constituents either the intermediate phrase or the intonation phrase and are realised as boundary tones Building on current analyses a model is proposed in

which tones in the Pitch Accent are also hierarchically structured involving two levels the Supertone and Tone This extended Pitch Accent structure not only explains apparent inconsistencies in phonetic alignment in Palermo Italian but also accounts for equivalent consistency in alignment in English In addition it allows leading tones in Palermo Italian to be treated in a qualitatively different way from leading tones in English The Palermo Italian interrogative marker consists of a L H Pitch Accent There is no paradigmatic contrast on the intermediate phrase boundary tone it is always L which means that its function is purely delimitative This tone is only fully realised when a postaccentual syllable is available to carry it technically it requires a secondary attachment to a syllable The absence of the falling part of the L HL L configuration in phrases with no postaccentual syllable is thus explained Hannah Arendt and the Limits of Total Domination Michal Aharony, 2015-03-05 Responding to the increasingly influential role of Hannah Arendt's political philosophy in recent years Hannah Arendt and the Limits of Total Domination The Holocaust Plurality and Resistance critically engages with Arendt's understanding of totalitarianism According to Arendt the main goal of totalitarianism was total domination namely the virtual eradication of human legality morality individuality and plurality This attempt in her view was most fully realized in the concentration camps which served as the major laboratories for the regime While Arendt focused on the perpetrators logic and drive Michal Aharony examines the perspectives and experiences of the victims and their ability to resist such an experiment The first book length study to juxtapose Arendt's concept of total domination with actual testimonies of Holocaust survivors this book calls for methodological pluralism and the integration of the voices and narratives of the actors in the construction of political concepts and theoretical systems To achieve this Aharony engages with both well known and non canonical intellectuals and writers who survived Auschwitz and Buchenwald concentration camps Additionally she analyzes the oral testimonies of survivors who are largely unknown drawing from interviews conducted in Israel and in the U S as well as from videotaped interviews from archives around the world Revealing various manifestations of unarmed resistance in the camps this study demonstrates the persistence of morality and free agency even under the most extreme and dehumanizing conditions while cautiously suggesting that absolute domination is never as absolute as it claims or wishes to be Scholars of political philosophy political science history and Holocaust studies will find this an original and compelling book **Introducing Corpora in Translation Studies** Maeve Olohan, 2004-08-05 Written by Maeve Olohan a leading name in the field and offering a comprehensive account of the use of corpora by today's translators and researchers this book is the definitive guide to a fast developing area of study **The Making of Chinese-Sinophone Literatures as World Literature** Kuei-fen Chiu, Yingjin Zhang, 2021-12-21 In The Making of Chinese Sinophone Literatures as World Literature Kuei fen Chiu and Yingjin Zhang aim to bridge the distance between the scholarship of world literature and that of Chinese and Sinophone literary studies This edited volume advances research on world literature by bringing in new developments in Chinese Sinophone literatures and adds a much needed new global perspective on Chinese literary studies beyond the traditional

national literature paradigm and its recent critique by Sinophone studies In addition to a critical mapping of the domains of world literature Sinophone literature and world literature in Chinese to delineate the nuanced differences of these three disciplines the book addresses the issues of translation genre and the impact of media and technology on our understanding of literature and literary prestige It also provides critical studies of the complicated ways in which Chinese and Sinophone literatures are translated received and reinvested across various genres and media and thus circulate as world literature The issues taken up by the contributors to this volume promise fruitful polemical interventions in the studies of world literature from the vantage point of Chinese and Sinophone literatures An outstanding volume full of insights with chapters by leading scholars from an admirable range of perspectives Chiu and Zhang's *The Making of Chinese Sinophone Literatures as World Literature* expertly integrates Chinese and Sinophone studies with world literature scholarship opening numerous possibilities for future analyses of literature media and cultural history Karen L Thornber Harvard University This book is at once the best possible introduction to recent debates on world literature from the perspective of Chinese Sinophone literatures and a *summa critica* that thinks through their transcultural drives global travels varied worldings and translational forces The comparative perspectives gathered here accomplish the necessary and urgent task of reconfiguring both the idea of the world in world literature and the ways we study the inscriptions of Chinese Sinophone literatures in the world Mariano Siskind Harvard University
