Maya timekeeping and worldview is far more impressive and remarkable than any of the popular and often outrageous claims about this advanced civilization As someone who has studied the Maya for nearly all of his life and who specializes in reading their ancient texts Stuart sees the 2012 hubbub as the most recent in a long chain of related ideas about Mesoamericans the Maya in particular that depicts them as somehow oddball not of this world or as having some strong mystical link to other realms Because the year 2012 has no prominent role in anything the ancient Maya ever actually wrote Stuart takes a wider look at the Maya concepts of time and their underlying philosophy as we can best understand them The ancient Maya Stuart contends were worthy of study and admiration not because they were strange but because they were altogether human and they developed a compelling vision of time unlike any other civilization before or since *The Ancient Maya* My Ebook Publishing House,2016-11-23 The Ancient Maya creates a portrait of life in the ancient Mayan civilization Describes the history language social classes customs culture religion and warfare of the ancient civilization of the Mayas Easy to read and very interesting providing first an overview then a chapter by chapter journey through major events in Maya history concluding with a separated portion of highlighting major aspects in Maya knowledge and ancient ways **Tikal** Charles River Charles River Editors,Jesse Harasta,2017-01-26 Includes pictures Includes footnotes and a bibliography for further reading Many ancient civilizations have influenced and inspired people in the 21st century The Greeks and Romans continue to fascinate the West today But of all the world s civilizations none have intrigued people more than the Mayans whose culture astronomy language and mysterious disappearance all continue to captivate people In 2012 especially there was a renewed focus on the Mayans whose advanced calendar has led many to speculate the world would end on the same date the Mayan calendar ends but if anything the focus on the doomsday scenario overshadowed the Mayans true contribution to astronomy language sports and art The Maya maintained power in the Yucatan for over a thousand years and at the height of its Classical era 3rd 9th centuries A D the city of Tikal was one of the power centers of the empire Archaeologists believe Tikal had been built as early as the 5th or 4th century BC and eventually it became a political economic and military capital that was an important part of a far flung network across Mesoamerica despite the fact it was seemingly conquered by Teotihuacan in the 4th century AD It seems the foreign rulers came to assimilate Mayan culture thus ensuring Tikal would continue to be a power base and as a result the city would not be abandoned until about the 10th century AD As one of the Ancient Maya s most important sites construction at Tikal was impressive and even though it was apparently conquered the city s records were unusually well preserved This includes a list of the city s dynastic rulers as well as the tombs and monuments dedicated to them Thanks to this preservation Tikal offers researchers their best look at the Ancient Maya and has gone a long way toward helping scholars understand Mayan history Tikal The History of the Ancient Maya s Famous Capital covers the history of the city as well as the speculation and debate surrounding it Along with pictures and a bibliography you will learn about Tikal like you never have before in no time at all **Encyclopedia of the Ancient Maya**
