SEX Flávio Gikovate, 2011-06-20 Sex is one of the topics most spoken and written about According to Gikovate this is a sign that it is still poorly understood and far from a satisfactory resolution As such in this book he rethinks several myths and half truths about sex and addresses controversial issues Based on his believe that sex and love are two autonomous and often antagonistic impulses Gikovate points out the strong association between sexuality and aggressiveness especially in men At the same time he shows that desire and arousal are very different phenomena while the first is elitist based on elements of a consumer society that is almost out of control the second is a democratic pleasure easily attainable by all Gikovate proposes that we reconsider our current worshipping of desire since it serves to valorise casual sex preserve selfishness and promote emotional immaturity things that decent people have been trying to free themselves of for the longest time *2 Sides of a Penny Part 2* Carlton Brown, 2016-03-14 In *2 Sides of a Penny Part two* time never stands still and the world continues to turn in directions that make Jason and Italy face their worst fears sooner than they d like Jason must come to grips with losing the people closest to him while struggling to hold on to the last thing he loves An unexpected betrayal finds him trying to save his brother Savion who has become wanted for being America s nightmarish reality From settling old scores with his one time friend Gooney to establishing new love Jason continues to prove only the strong survive in a world of vultures Italy continues to be a black girl lost in the cold streets of the Bay Area While still running from her abusive ex boyfriend Donovan to facing the harsh truth from her mother Beth Italy continues to make bad choices until one day faced with a life changing awakening This classic story concludes the drama of two lives with two sides and all the confusion they each face while trying to maintain some kind of focused mind With love betrayal violence and corruption this story closes with a newfound honor respect and deep appreciation of life **Race, Rape, and Injustice** Michael Meltsner, Barrett J. Foerster, 2012-12-15 This book tells the dramatic story of twenty eight law students one of whom was the author who went south at the height of the civil rights era and helped change death penalty jurisprudence forever The 1965 project was organized by the NAACP Legal Defense and Educational Fund which sought to prove statistically whether capital punishment in southern rape cases had been applied discriminatorily over the previous twenty years If the research showed that a disproportionate number of African Americans convicted of raping white women had received the death penalty regardless of nonracial variables such as the degree of violence used then capital punishment in the South could be abolished as a clear violation of the Fourteenth Amendment s Equal Protection Clause Targeting eleven states the students cautiously made their way past suspicious court clerks lawyers and judges to secure the necessary data from dusty courthouse records Trying to attract as little attention as possible they managed amazingly to complete their task without suffering serious harm at the hands of white supremacists Their findings then went to University of Pennsylvania criminologist Marvin Wolfgang who compiled and analyzed the data for use in court challenges to death penalty convictions The result was powerful evidence that thousands of jurors had voted

on racial grounds in rape cases This book not only tells Barrett Foerster's and his teammates story but also examines how the findings were used before a U S Supreme Court resistant to numbers based arguments and reluctant to admit that the justice system had executed hundreds of men because of their skin color Most important it illuminates the role the project played in the landmark Furman v Georgia case which led to a four year cessation of capital punishment and a more limited set of death laws aimed at constraining racial discrimination A Virginia native who studied law at UCLA BARRETT J FOERSTER 1942-2010 was a judge in the Superior Court in Imperial County California MICHAEL MELTSNER is the George J and Kathleen Waters Matthews Distinguished Professor of Law at Northeastern University During the 1960s he was first assistant counsel to the NAACP Legal Defense Fund His books include The Making of a Civil Rights Lawyer and Cruel and Unusual The Supreme Court and Capital Punishment **Couple Observational Coding Systems** Patricia K. Kerig, Donald H. Baucom, 2004-07-22

A companion volume to Family Observational Coding Systems this book moves from the triad to the dyad and provides a showcase for significant developments in the coding of intimate couple interactions The hope is that this book will contribute to the broadening and deepening of the field by disseminating information both about the coding systems that have been developed as well as the conceptual and methodological issues involved in couple observational research The first three chapters present overviews of conceptual and methodological issues in the study of couple processes The remaining chapters describe contributions to the field by 16 teams of researchers Each chapter provides information about the conceptual underpinnings and structure of the coding system developed by the authors and evidence for its psychometric properties Couple Observational Coding Systems will be of interest to researchers studying couple interactions as well as clinicians who work with couples EarthDust 1 Gary Blackburn, 2021-09-10

Candace Falk, 2019-06-07 What this remarkable book does is to remind us of that passion that revolutionary fervor that camaraderie that persistence in the face of political defeat and personal despair so needed in our time as in theirs Howard Zinn Fascinating With marvelous clarity and depth Candace Falk illuminates for us an Emma Goldman shaped by her time yet presaging in her life the situation and conflicts of women in our time Tillie Olsen One of the most famous political activists of all time Emma Goldman was also infamous for her radical anarchist views and her scandalous personal life In public Goldman was a firebrand confidently agitating for labor reform anarchism birth control and women's independence But behind closed doors she was more vulnerable especially when it came to the love of her life Love Anarchy Emma

Goldman is an account of Goldman's legendary career as a political activist. But it is more than that; it is a biography that offers an intimate look at how Goldman's passion for social reform dovetailed with her passion for one man. Chicago activist, hobo king, and red light district gynecologist Ben Reitman. Candace Falk takes us into the heart of their tumultuous love affair, finding that even as Goldman lectured on free love, she confronted her own intense jealousy. As director of the Emma Goldman papers, Falk had access to over 40,000 writings by Goldman, including her private letters and notes, and she draws upon these archives to give us a rare insight into this brilliant complex woman's thoughts. The result is both a riveting love story and a primer on an exciting, explosive era in American politics and intellectual life. **A Ming Society** John W.

Kerr, 2009-08-01 The concepts of Murray Bowen, one of the founders of family therapy and the originator of family systems theory, are brought together here in an integrative fashion. Michael Kerr, who worked with Bowen for many years, and Bowen propose that the enormously complex task of evaluating a clinical family can be orderly when it is grounded in family systems theory. Using family diagrams and case studies, the book is devoted to an elegant explication of Bowen theory, which analyzes multigenerational family relationships and conceptualizes the family as an emotional unit or as a network of interlocking relationships, not only among the family members but also among biological, psychological, and sociological processes. Bowen's persistent inquiry and devotion to family observation, in spite of obstacles and frustrations, have resulted in a theory that has radically changed our ways of looking at all behavior.
