Review of the implementation of the International Guidelines for the Management of Deep-sea Fisheries in the High Seas Thompson, A. B., Reid, K., 2024-04-30 The International Guidelines for the Management of Deep sea Fisheries in the High Seas (DSF) Guidelines were adopted by FAO in 2008. Author: The first and only review of the implementation of the Guidelines took place in 2010. Author: There have been many advances in implementation since then and it is timely to conduct another review. Author: The DSF Guidelines have been used to guide regional fisheries management organizations and states in the development of spatial management processes, defining fishing grounds and protecting vulnerable marine ecosystems. Author: The DSF Guidelines also require that harvested fish stocks and impacts on bycatch species are assessed and managed, but this has been less well implemented. Author:
