Kalu,2019-12-09 This book is a powerful exploration of the role of women in the evolution of African thinking and narratives on development from the precolonial period right through to the modern day Whilst the book identifies women's oppression and marginalization as significant challenges to contemporary Africa's advancement it also explores how new written narratives draw on traditional African knowledge systems to bring deep rooted and sometimes radical approaches to progress The book asserts that Africans must tell their own stories expressed through the complex meanings and nuances of African languages and often conveyed through oral traditions and storytelling in which women play an important role The book's close examination of language and meaning in the African narrative tradition advances the illumination and elevation of African storytelling as part of a viable and valid knowledge base in its own right rather than as an extension of European paradigms and methods Anthonia C Kalu's new edition of this important book fully revised throughout will also include fresh analysis of the role of digital media education

and religion in African narratives At a time when the prominence and participation of African women in development and sociopolitical debates is growing this book's exploration of their lived experiences and narrative contribution will be of interest to students of African literature gender studies development history and sociology

African Literature and the Politics of Culture James Tar Tsaaio, 2013-11-01 This book essentially negotiates African literature as a veritable site of artistic and cultural production and situates it within the dynamic of postcolonial cultural politics It critically evaluates African literature as a contour of cultural contestation with the imperial politics of knowledge production about others and as an ideological strategy for knowing them The book's main contribution to the critical discourse on African literature and culture inheres in the fact that politics constitutes the enduring concern of society as it re-shapes and over-determines discourses which have continued to remain crucial to societal engineering It however imagines the discursive existence as necessary for the evolving of a dynamic African literary tradition with an abiding fidelity to the verities of history The book is useful for literary scholars historians critics experts and students of postcolonial cultural studies as well as general readership interested in African studies
