Survival Instinct Stephen Akintayo,2014-06-16 It s hard to dream big and see a brighter tomorrow when you see and live in so much abject poverty and you are literarily cut off from the world as you grow up from a part of the world where for over 5years of your life there was no electricity and the water you were taking was soiled while you and people around you live in mud houses and the distance you have to trek everyday to school is so massive and even when you return home there was no lunch for you and you had a lot to do To further heighten your survival challenge you live as a scavenger having to depend on crumbs from colleagues Whatever your background you can become a global success from a third world country

Survival Instincts Christine R. Hensel,1998 Survival Instinct Rachelle McCalla,2010-02-01 Returning to Devil s Island the place that haunts her past is frightening enough for Abby Caldwell When her ride home mysteriously disappears terror starts closing in The island can be deadly and no one knows that better than Abby At least she s not alone Scott Frasier a former college classmate is there along with his mother and stepfather But then Scott s mother goes missing Scott and Abby are forced to face the truth all they have is each other and ruthless enemies determined to make sure they don t leave the island alive

Your Survival Instinct Is Killing You Marc Schoen,2013-03-21 Thanks to technology we live in a world that s much more comfortable than ever before But here s the paradox our tolerance for discomfort is at an all time low And as we wrestle with a sinking discomfort threshold we increasingly find ourselves at the mercy of our primitive instincts and reactions that can perpetuate disease dysfunction and impair performance and decision making Designed to keep us out of danger our limbic brain s Survival Instinct controls what we intuitively do to avert injury or death such as running out of a burning building Rarely are we required to recruit this instinct today because seldom do we find ourselves in situations that are truly life threatening However this part of our brain is programmed to naturally and automatically react to even the most benign forms of discomfort and stress as serious threats to our survival In this seminal book we learn how the Survival Instinct is the culprit that triggers a person to overeat prevents the insomniac from sleeping causes the executive to unravel under pressure leads travelers to avoid planes or freeways inflames pain and due to past heartache closes down an individual to love In all of these cases their overly sensitive Survival Instinct is being called into action at the slightest hint of discomfort In short their Survival Instinct is stuck in the ON position with grave consequences Your Survival Is Killing You can transform the way you live Provocative eye opening and surprisingly practical with its gallery of strategies and ideas this book will show you how to build up your instinctual muscles for successfully managing discomfort while taming your overly reactive Survival Instinct You will learn that the management of discomfort is the single most important skill for the twenty first century This book is at its heart a modern guide to survival
