Surviving the Stained-Glass Jungle William L.

Self, 2011 *Surviving the Stained Glass Jungle* is a compelling and positive look at the parish ministry through the eyes of a veteran pastor of more than 52 years. The book directly confronts the issues of burnout, conflict, stress, and social concerns. It gives strategy and practical help in navigating through these difficult currents. Self addresses the usual themes of preaching, administration, and pastoral care but also gives practical help with the issues of the pastor's own mental health and self-care. This material is written for parish leaders of all mainline denominations and will become a standard for the practice of ministry. The general theme of the book is that the church is worth the effort. The target audience is seminarians and veteran pastors alike in order to encourage them in the task. Laymen would also benefit significantly by reading this book, gaining a better understanding of the ministry. William L. Self has a national reputation as a gifted preacher, pastor, author, lecturer, motivational speaker for corporate America, and innovator in church growth. He has pastored four churches in more than fifty years of ministry and has survived fourteen building programs and more than 1,200 deacons and finance committee meetings. He achieved considerable acclaim during his 26-year pastorate at the Wieuca Road Baptist Church in Atlanta, and his leadership and substantial influence have brought Johns Creek Baptist Church in Alpharetta, Georgia, a burgeoning suburb north of Atlanta to the vanguard of fast-growing congregations.

Swamp Anthony Wilson, 2017-11-15. Throughout history, swamps have been idealized and demonized, purged and protected. Today they are simultaneously considered metaphorical places of evil, pestilence, and death and treasured as diverse biological ecosystems teeming with life. Covering not only swamps and bogs but also marshes and wetlands, *Swamp* ventures into the cultural and ecological histories of these mysterious, mythologized, and misunderstood landscapes. Anthony Wilson takes readers into swamps across the globe, from the freshwater marshes of Botswana's tremendous Okavango delta to the notable swamps between the Tigris and Euphrates rivers to the peat bogs in Russia, the British Isles, and Scandinavia, which have been used as energy sources for centuries. It explores ideas and representations of wetlands across centuries, cultures, and continents, considering legend and folklore, mythology, literature, film, and natural and cultural history. As it plumbs the murky depths of swamps from the distant past to an uncertain future, *Swamp* provides an engaging, accessible, informative, and lavishly illustrated journey into these fascinating landscapes.

Surviving the Money Jungle Larry Burkett, 1990-02. *Extremes* Nick Middleton, 2015-03-10. Humans have a remarkable knack for surviving harsh environments. But how do people really endure the world's most remote and inhospitable landscapes where nature still reigns and where the physical geography is raw and unforgiving? In *Extremes*, renowned geographer and travel writer Nick Middleton puts his body and mind to the test in an attempt to find the answer. His mission is to learn how to cope with four especially horrendous habitats: Through arctic wasteland, jungle, desert, and swamp, Nick pits himself against the elements and explains the geographical conditions that conspire to produce the world's harshest ecologies. He also discovers the various human quirks that people have evolved to make life at the edge bearable. In northern Greenland, Nick joins a group of Inuits hunting for narwhal, crucial to the group's survival on the edge of

fragile sea ice while in the jungle he ventures into Congo's tropical forest home of the Biaka pygmies He joins the annual crossing of the Tenere desert by the women of the Tubu tribe to collect dates and then travels to Papua one of the least explored places on earth to find the Kombai people a remote group of tree house dwellers above the Asmat region's flood plain Extremes is Nick Middleton's amazing account of four of the most unwelcoming environments on earth Can he pick up enough tips from the indigenous people of these locations to hack it at the very edge of human existence or will his mid latitude sensibilities forever let him down

"No One Helped" Marcia M. Gallo,2015-08-11 In No One Helped Marcia M Gallo examines one of America s most infamous true crime stories the 1964 rape and murder of Catherine Kitty Genovese in a middle class neighborhood of Queens New York Front page reports in the New York Times incorrectly identified thirty eight indifferent witnesses to the crime fueling fears of apathy and urban decay Genovese s life including her lesbian relationship also was obscured in media accounts of the crime Fifty years later the story of Kitty Genovese continues to circulate in popular culture Although it is now widely known that there were far fewer actual witnesses to the crime than was reported in 1964 the moral of the story continues to be urban apathy No One Helped traces the Genovese story s development and resilience while challenging the myth it created No One Helped places the conscious creation and promotion of the Genovese story within a changing urban environment Gallo reviews New York s shifting racial and economic demographics and explores post World War II examinations of conscience regarding the horrors of Nazism These were important factors in the uncritical acceptance of the story by most media political leaders and the public despite repeated protests from Genovese s Kew Gardens neighbors at their inaccurate portrayal The crime led to advances in criminal justice and psychology such as the development of the 911 emergency system and numerous studies of bystander behaviors Gallo emphasizes that the response to the crime also led to increased community organizing as well as feminist campaigns against sexual violence Even though the particulars of the sad story of her death were distorted Kitty Genovese left an enduring legacy of positive changes to the urban environment
