

The 7 Types of Evil Spirits

In almost all of our articles we reveal spiritual issues that talk about different types of evil spirits. These are the demons who are part of the kingdom of satan. The Bible reveals that there are only 7 types of demons, though there are probably millions or billions of these demon entities in the world (some are more wicked than others). The revelation of the "classification" of evil spirits came to me when I searched the internet for the word "pride" after having a dream where I was shown the word "pride". I found a website called shamah-elim.info which detailed the scriptures that revealed the types of evil spirits, and the Lord confirmed the revelation through many other scriptures and direct experience.

A key way to understand spiritual reality is to look at the manifestation in the physical reality. Mankind are spiritual beings with a physical body, so we can "see" spiritually and physically; and our experiences can be both spiritual and physical. However, the physical is always a manifestation of what is happening in the spiritual. Thus, we can "see" and understand spiritual things by what happens physically in a consistent way. Jesus told us that we would know the false prophets by their fruits, which is what manifests from them. Good manifests good and evil manifests evil.

Before we look at the scriptures that reveal the 7 types of evil spirits we must first understand something about names. When God created the animals He brought them to Adam for him to name them.

"And out of the ground the LORD God formed every beast of the field, and every fowl of the air; and brought [them] unto Adam to see what he would call them: and whatsoever Adam called every living creature, that [was] the name thereof." (Gen 2:19)

A name denotes a physical or spiritual characteristic of the thing that is named. But remember that all physical things come from something spiritual, so a name always reveals the spiritual characteristic of something or someone. For example, the serpent is described as the most subtil beast of the field that the Lord God made. So we know that the name "serpent" means "subtil", which means "crafty", "sly", "cautious (slow deliberate moves)". When Adam observed the beast that he called a serpent he noticed how he operated and called it "serpent", which comes from a root word meaning "hissing", "whisperer", "enchantment", "divination". A serpent operates in "hidden" things, which makes it crafty. The devil entered and spoke through the serpent because that is his character, a subtil whisperer.

We can look at the name of something or someone to determine the spirit "behind" the thing or the person.

When the Lord told the children of Israel that He was giving them the land of Canaan He told them that they would have to get rid of 7 nations that lived on the land. The Lord would deliver these nations into their hands but they would have to enter into physical warfare in order to defeat them. The land of Canaan is the land flowing in milk and honey that God had covenanted to give unto Abraham and his seed; however it was now inhabited by 7 mighty nations. God was not going to just hand it over to the children of Israel, rather the Lord would help them conquer the land; for He swore unto His friend Abraham to give it to his seed if they were faithful unto Him (God).

"When the LORD thy God shall bring thee into the land whither thou goest to possess it, and hath cast out many nations before thee, the Hittites, and the Girgashites, and the Amorites, and the Canaanites, and the Perizzites, and the Hivites, and the Jebusites, seven nations greater and mightier than thou; And when the LORD thy God shall deliver them before thee; thou shalt smite them, [and] utterly destroy them; thou shalt make no covenant with them, nor shew mercy unto them:" (Deut 7:1-2)

Metaphors of ANGER across Languages: Universality and Variation Zoltan Kövecses,Réka Benczes,Veronika Szelid,2024-11-04 Anger is one of the basic emotions of human emotional experience informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context
