The Aims Of Argument 7th Edition:

Teaching Writing in the Age of Catastrophic Climate Change Justin Everett, Russell Mayo, 2024-11-25 Catastrophic storms searing heat waves crumbling waterfronts warming oceans air fouling forest fires and mass extinction have become facts of life Under these conditions it is difficult to imagine that the global industrial civilization will continue in its present form This requires us to reconsider the subject of ecocomposition from a new perspective What does it mean to teach college writing in the face of this sobering reality The introduction reviews the history of ecocomposition and reframes it in light of the apocalyptic turn in climate discourse over the last quarter century as well as the role that ecocomposition theory can play in framing these discussions Teaching Writing in the Age of Catastrophic Climate Change is organized into four sections The first section considers the environmental narrative from the viewpoint of climate justice while the second reframes pedagogies of place in light of the climate catastrophe The third section examines the intersections of writing studies and the natural sciences while the fourth section entertains the personal and emotional dimensions of teaching ecocomposition within the framework of catastrophic climate change If we have been successful these chapters provide a starting place for having sobering discussions in our classrooms and considering what ecocomposition means in this unsettling age

Practical Expressivism Neil Sinclair, 2021-02-04 What is morality In Practical Expressivism Neil Sinclair argues that morality is a purely natural interpersonal coordination device whereby human beings express their attitudes in order to influence the attitudes and actions of others The ultimate goal of these expressions is to find acceptable ways of living together This expressivist model for understanding morality faces well known challenges concerning saving the appearances of morality because morality presents itself to us as a practice of objective discovery not pure expression This book demonstrates how a properly developed expressivist view can overcome this objection by showing that even if moral practice is fundamentally expressive it can still come to possess those features that make it appear objective features such as talk and thought of moral disagreement truth and belief and the applicability of logical notions to moral sentences The key to this development is to emphasise the unique and intricate practical role that morality plays in our lives Practical expressivism is also practical in the further sense that it provides repeatable patterns that expressivists can deploy in coming to understand the apparently objective features of morality

Forthcoming Books Rose Arny, 2002 *Private Wrongs* Arthur Ripstein, 2016-04-05 Tort law recognizes the many ways one person wrongs another Arthur Ripstein brings coherence to torts diversity in a philosophically grounded analytically powerful theory He shows that all torts violate the basic moral idea that each person is in charge of his or her own person and property and never in charge of another's person or property
