The Art of Being Yi-Ping Ong, 2018-12-10 The Art of Being is a powerful account of how the literary form of the novel reorients philosophy toward the meaning of existence Yi Ping Ong shows that for Kierkegaard Sartre and Beauvoir the form of the novel in its classic phase yields the conditions for reconceptualizing the nature of self knowledge freedom and the world Their discovery gives rise to a radically new poetics of the nineteenth and twentieth century realist novel For the existentialists a paradox lies at the heart of the novel As a work of art the novel exists as a given totality At the same time the capacity of the novel to compel belief in the free and independent existence of its characters depends on the absence of any perspective from which their lives may be viewed as a consummated whole At stake in the poetics of the novel are the conditions under which knowledge of existence is possible Ong's reframing of foundational debates in novel theory takes us beyond old dichotomies of mind and world interiority and totality and form and mimesis It illuminates existential dimensions of novelistic realism overlooked by empirical and sociological approaches Bringing together philosophy novel theory and intellectual history with groundbreaking readings of Tolstoy Eliot Austen James Flaubert and Zola The Art of Being reveals how the novel engages in its very form with philosophically rich notions of self knowledge freedom authority world and the unfinished character of human life

Book of Destiny and the Art of Reading Therein Grand Orient Staff, 1988-03-01

The Book of Destiny and the Art of Reading Therein, 1912 *The Art of Life* Zygmunt Bauman, 2013-05-20 In our individualized society we are all artists of life whether we know it or not will it or not and like it or not by decree of society if not by our own choice In this society we are all expected rightly or wrongly to give our lives purpose and form by using our own skills and resources even if we lack the tools and materials with which artists studios need to be equipped for the artist's work to be conceived and executed And we are praised or censured for the results for what we have managed or failed to accomplish and for what we have achieved and lost In our liquid modern society we are also taught to believe that the purpose of the art of life should be and can be happiness though it's not clear what happiness is the images of a happy state keep changing and the state of happiness remains most of the time something yet to be reached This new book by Zygmunt Bauman one of the most original and influential social thinkers writing today is not a book of designs for the art of life nor a how to book the construction of a design for life and the way it is pursued is and cannot but be an individual responsibility and individual accomplishment It is instead a brilliant account of conditions under which our designs for life are chosen of the constraints that might be imposed on their choice and of the interplay of design accident and character that shape their
