The Authoritarian Dynamic Paperback:

The Authoritarian Dynamic Karen Stenner, 2005-07-25 What is the basis for intolerance This book addresses that question by developing a universal theory about what causes intolerance of difference in general which includes racism political intolerance e g restriction of free speech moral intolerance e g homophobia supporting censorship opposing abortion and punitiveness It demonstrates that all these seemingly disparate attitudes are principally caused by just two factors individuals innate psychological predispositions to intolerance authoritarianism interacting with changing conditions of societal threat

The Stranger at Hand (paperback) András Kovács, 2010-10-15 In 2010 an extremist party with openly racist views using barely concealed antisemitic language received 17% of the votes in the parliamentary elections in Hungary How can this awkward development in a newly established European democracy be explained In this book the author examines antisemitism in post communist Hungary in light of the empirical sociological studies of the past 20 years The principal aim is to reconstruct the range intensity and content of anti Jewish prejudices as well as the factors affecting their change over time The author also reveals the social background against which the newest political developments should be analyzed and helps to determine whether in Hungary today antisemitism is only an ephemeral temporary phenomenon or a gradually articulating dynamic political ideology his work is indispensable for understanding politics and its historical social and cultural background in contemporary Hungary Gabor T Rittersporn

Richard Milner, IV, 2021 This book applies the principles of restorative justice to literacy education Restorative literacies are designed to help educators reach repair and restore the literacies of our most disenfranchised and disengaged students in all classrooms through the recognition and expansion of students experiences and literacies they bring to school Restorative literacies aim to create a community of care that involves students teachers administrators student s families and principals so that all students experience racially culturally linguistically and economically responsive authentic and engaging instruction in multiple forms of literacies The practice of restorative literacies focuses on building and strengthening positive relationships between the backgrounds and perspectives as well as the variable skills proficiencies and fluencies of readers the multiple texts readers encounter and the authors of such texts through an intentional system of response repair and restoration in an educational setting

The Decay of Western Civilisation and Resurgence of Russia Glenn Diesen, 2018-09-03 What explains the rise of populist movements across the West and their affinity towards Russia UKIP s Brexit victory Trump s triumph and the successive elections and referendums in Europe were united by a repudiation of the liberal international order These new political forces envision the struggle to reproduce and advance Western civilisation to be fought along a patriotism cosmopolitanism or nationalism globalism battlefield in which Russia becomes a partner rather than an adversary Armed with neomodernism and geoeconomics Russia has inadvertently taken on a central role in the decay of Western civilisation This book explores the cooperation and competition between Western and Russian civilisation and the

rise of anti establishment political forces both contesting the international liberal order and expressing the desire for closer relations with Russia Diesen proposes that Western civilisation has reached a critical juncture as modern society gesellschaft has overwhelmed and exhausted the traditional community gemeinschaft and shows the causes for the decay of Western civilisation and the subsequent impact on cooperation and conflict with Russia The author also considers whether Russia s international conservatism is authentic and can negate the West s decadence or if it is merely a shrewd strategy by a rival civilisation also in decay This volume will be of interest to scholars of international relations political science security studies international political economy and Russian studies *Branding Authoritarian Nations* Petra Alderman,2023-07-28 *Branding Authoritarian Nations* offers a novel approach to the study of nation branding as a strategy for political legitimation in authoritarian regimes using the example of military ruled Thailand The book argues that nation branding is a political act that is integral to state legitimation processes particularly in the context of authoritarian regimes It applies its alternative reading of nation branding to eight different sectors tourism economy foreign direct investment foreign policy education culture public relations and the private sector The author explains that nation branding produces specific kinds of applied national myths referred to as strategic national myths She shows that nation branding is an inherently inward looking strategy aimed at shaping the social attitudes and behaviours of the nation s citizens in line with the government s domestic agenda and legitimation needs Providing the first comprehensive analysis of nation branding in Thailand and the first book length account of the country s political developments since the 2014 2019 military rule the book is primarily aimed at academics in the disciplines of politics international relations communication and area studies as well as business cultural and intercultural studies **Russian Conservatism** Glenn Diesen,2021-01-12 Russian conservatism is making a forceful return after a century of experimenting with socialism and liberalism Conservatism is about managing change by ensuring that modernization evolves organically by building on the past Conservatism has a natural attraction for Russia as its thousand year long history is largely characterized by revolutionary change the destructive process of uprooting the past to give way to modernity Navigating towards gradual and organic modernization has been a key struggle ever since the Mongols invaded in the early 13th century and decoupled Russia from Europe and the arteries of international trade Russian history has consisted of avoiding revolutions that are either caused by falling behind on modernization or making great leaps forward that disrupts socio economic and political traditions Russian conservatives are now tasked with harmonizing the conservative ideas of the 19th century with the revolutionary changes that shaped Russia in the 20th century The rise of Asia now provides new opportunities as it enables Russia to overcome its fixation on the West and develop a unique Russian path towards modernization that harmonizes its Eurasian geography and history *The Digital Literary Sphere* Simone Murray,2018-10-01 How has the Internet changed literary culture 2nd Place N Katherine Hayles Award for Criticism of Electronic Literature by The Electronic Literature Organization Reports of the book s death have been greatly exaggerated

Books are flourishing in the Internet era widely discussed and reviewed in online readers forums and publicized through book trailers and author blog tours But over the past twenty five years digital media platforms have undeniably transformed book culture Since Amazon s founding in 1994 the whole way in which books are created marketed publicized sold reviewed showcased consumed and commented upon has changed dramatically The digital literary sphere is no mere appendage to the world of print it is where literary reputations are made movements are born and readers passionately engage with their favorite works and authors In *The Digital Literary Sphere* Simone Murray considers the contemporary book world from multiple viewpoints By examining reader engagement with the online personas of Margaret Atwood John Green Gary Shteyngart David Foster Wallace Karl Ove Knausgaard and even Jonathan Franzen among others Murray reveals the dynamic interrelationship of print and digital technologies Drawing on approaches from literary studies media and cultural studies book history cultural policy and the digital humanities this book asks What is the significance of authors communicating directly to readers via social media How does digital media reframe the live author reader encounter And does the growing army of reader reviewers signal an overdue democratizing of literary culture or the atomizing of cultural authority In exploring these questions *The Digital Literary Sphere* takes stock of epochal changes in the book industry while probing books and digital media s complex contemporary coexistence **Publishers Weekly Yearbook** ,1983 **Paperbacks in Print** ,1966

The Deep State Mike Lofgren,2016-09-13 The New York Times bestselling author of *The Party Is Over* delivers a no holds barred expos of who really wields power in Washington Every four years tempers are tested and marriages fray as Americans head to the polls to cast their votes But does anyone really care what we think Has our vaunted political system become one big expensive painfully scripted reality TV show In this powerful expose of the sins and excesses of Beltwayland a longtime Republican party insider argues that we have become an oligarchy in form if not in name Hooked on war genuflecting to big donors in thrall to discredited economic theories and utterly bereft of a moral compass America s governing classes are selling their souls to entrenched interest while our bridges collapse wages stagnate and our water is increasingly undrinkable Mike Lofgren was the first to use the term Deep State in an essay and exclusive interview on Moyers and Company to refer to a web of entrenched interests in the US government and beyond most notably Wall Street and Silicon Valley which controls access to our every click and swipe that dictate America s defense decisions trade policies and priorities with little regard for the actual interests or desires of the American people In this essential and eye opening book Lofgren takes his argument one step further Drawing on insights gleaned over three decades on Capitol Hill much of it on the Budget Committee he paints a gripping portrait of the dismal swamp on the Potomac and the revolution it will take to reclaim our government and set us back on course **Air University Library Index to Military Periodicals** ,1997

Living in the End Times Slavoj Žižek, 2011-04-18 Economics

Living in the End Times Slavoj Zizek, 2011-04-18 The celebrated philosopher explores the end of global capitalism at the hands of its key drivers the 4 riders of the apocalypse in this analysis of fierce brilliance

Guardian There should no longer be any doubt global capitalism is fast approaching its terminal crisis Slavoj i ek has identified the 4 horsemen of this coming apocalypse the worldwide ecological crisis imbalances within the economic system the biogenetic revolution and exploding social divisions and ruptures But if the end of capitalism seems to many like the end of the world how is it possible for Western society to face up to the end times In a major new analysis of our global situation i ek argues that our collective responses to economic Armageddon correspond to the stages of grief ideological denial explosions of anger and attempts at bargaining followed by depression and withdrawal After passing through this zero point we can begin to perceive the crisis as a chance for a new beginning Slavoj i ek shows the cultural and political forms of these stages of ideological avoidance and political protest from New Age obscurantism to violent religious fundamentalism Concluding with a compelling argument for the return of a Marxian critique of political economy i ek also divines the wellsprings of a potentially communist culture from literary utopias like Kafka s community of mice to the collective of freak outcasts in the TV series Heroes

Human Rights, Inc. Joseph R. Slaughter, 2009-08-25 In this timely study of the historical ideological and formal interdependencies of the novel and human rights Joseph Slaughter demonstrates that the twentieth century rise of world literature and international human rights law

are related phenomena Slaughter argues that international law shares with the modern novel a particular conception of the human individual The Bildungsroman the novel of coming of age fills out this image offering a conceptual vocabulary a humanist social vision and a narrative grammar for what the Universal Declaration of Human Rights and early literary theorists both call the free and full development of the human personality Revising our received understanding of the relationship between law and literature Slaughter suggests that this narrative form has acted as a cultural surrogate for the weak executive authority of international law naturalizing the assumptions and conditions that make human rights appear commonsensical As a kind of novelistic correlative to human rights law the Bildungsroman has thus been doing some of the sociocultural work of enforcement that the law cannot do for itself This analysis of the cultural work of law and of the social work of literature challenges traditional Eurocentric histories of both international law and the dissemination of the novel Taking his point of departure in Goethe's *Wilhelm Meister* Slaughter focuses on recent postcolonial versions of the coming of age story to show how the promise of human rights becomes legible in narrative and how the novel and the law are complicit in contemporary projects of globalization in colonialism neoimperialism humanitarianism and the spread of multinational consumer capitalism Slaughter raises important practical and ethical questions that we must confront in advocating for human rights and reading world literature imperatives that today more than ever are intertwined
