Charles Darwin, Francis Darwin, 2008-09-27 The authentic Autobiography My father's autobiographical recollections were written for his children and written without any thought that they would ever be published To many this may seem an impossibility but those who knew my father will understand how it was not only possible but natural The autobiography bears the heading Recollections of the Development of my Mind and Character and end with the following note Aug 3 1876 This sketch of my life was begun about May 28th at Hopedene Mr Hensleigh Wedgwood's house in Surrey and since then I have written for nearly an hour on most afternoons It will easily be understood that in a narrative of a personal and intimate kind written for his wife and children passages should occur which must here be omitted and I have not thought it necessary to indicate where such omissions are made Francis Darwin *The Autobiography of Charles Darwin*

Darwin,2015-10-01 I may of course be egregiously wrong but I cannot persuade myself that a theory which explains several large classes of facts can be wholly wrong Charles Darwin November 13 1859 Originally published in 1892 this autobiography of the great naturalist and father of modern biology compiled and edited by his son Francis is a an intriguing behind the scenes look into the personal life of a great scientist and the development of one of the most powerful ideas of the modern era Although a short book it is filled with absorbing and interesting glimpses into the mind and personal experiences of the man whose discoveries have had such a profound influence on science philosophy and the modern scientific perspective In the first half of the book Darwin reminisces about his early life his family and upbringing and his five year voyage on the HMS Beagle during which he made the many observations that were later to prove so critical to his formulation of evolutionary theory The second half is devoted mainly to the Origin of Species its foundations development the writing and publication process its varied critical reception and the gradual acceptance and growth of evolutionary theory Also included are thoughts on his lesser known work in geology and the fertilization of flowers plus a selection of his letters Contents CAMBRIDGE 1828 1831 VOYAGE OF THE BEAGLE FROM DECEMBER 27 1831 TO OCTOBER 2 1836 FROM MY RETURN TO ENGLAND OCTOBER 2 1836 TO MY MARRIAGE JANUARY 29 FROM MY MARRIAGE JANUARY 29 1839 AND RESIDENCE IN UPPER GOWER STREET RESIDENCE AT DOWN FROM SEPTEMBER 14 1842 TO THE PRESENT TIME 1876 MY SEVERAL PUBLICATIONS WRITTEN MAY 1ST 1881 **The Autobiography of Charles Darwin** Charles

Darwin,2004-06 When I left the school I was for my age neither high nor low in it and I believe that I was considered by all my masters and by my father as a very ordinary boy rather below the common standard in intellect To my deep mortification my father once said to me You care for nothing but shooting dogs and rat catching and you will be a disgrace to yourself and all your family *The Charles Darwin Collection* Charles Darwin,2020-09-15 These three major works by the father of evolutionary theory encompass his life journey through the Galapagos and landmark work on natural selection On the Origin of Species In one of the most important contributions to scientific knowledge Charles Darwin puts forth the theory that species evolve over time through the process of natural selection Drawn from extensive research performed on various creatures living in the Gal pagos Islands his research suggests that one species does change into another a revolutionary
