Prepared in collaboration with the Medical Library Association this completely updated revised and expanded edition lists classic and up to the minute print and electronic resources in the health sciences helping librarians find the answers that library users seek. **The 5 Minute Sports Medicine Consult** Mark D. Bracker, 2001 This new addition to The 5 Minute Consult Series is a clinically oriented quick consult reference for sports medicine. For the first time common sports related problems faced by primary care practitioners are thoroughly and concisely presented in the famous fast access 5 Minute Consult format. Chapters on musculoskeletal problems cover basics diagnosis acute treatment including on field management long term treatment including rehabilitation and referrals and commonly asked questions. Other chapters address the special populations of children adolescents females geriatric athletes and disabled athletes and general medical problems in athletic individuals. Appendices include clinical care algorithms a guide to the preparticipation examination and patient education handouts. **The 5-minute Urology Consult** Leonard G. Gomella, 2009 This is a comprehensive reference for urological disorders including adult and pediatric problems. Given the nature of the 5 Minute format it is more useful for medical than surgical approaches to urologic problems and thus functions well as an adjunct to Glenn's Urologic Surgery for which Len Gomella is also an editor. As a comprehensive reference it occupies a vacant spot in the market between good but smaller and less comprehensive handbooks and encyclopedic often multivolume textbooks. It is useful as a board exam prep tool. The Second Edition includes a number of new entries and a new section of algorithms for some of the most common or problematic diagnoses. The organization of the book has been revamped so that all standard 2 page entries are printed in alphabetical order and pages are tabbed for quicker access. The short entries are printed in alphabetical order in their own section after the standard entries. **The 5-Minute Pediatric Patient Advisor** M. William Schwartz, Bruce Goldfarb, 2001

The 5 Minute Pediatric Patient Advisor offers busy clinicians much needed assistance in counselling parents about their children's illnesses and treatments. The book contains concise complete patient information sheets about more than 150 symptoms and diseases based on the expert advice in The 5 Minute Pediatric Consult Second Edition and written in easily understandable layperson's terms. These information sheets can be photocopied and used as handouts to answer most of the questions that parents are likely to have. The 5 Minute Pediatric Patient Advisor and The 5 Minute Pediatric Consult Second Edition can be purchased together as a money saving package. **Griffith's 5-Minute Clinical Consult, 2002** Mark R.
