Hierarchical Vision of Order Antoine Roth, 2024-05-21 China's vision for international order is a matter of great global interest. This book analyses China's vision for foreign policy and how it is seeking to achieve its goals with its immediate neighbours. The book provides a historically informed account by examining the legacy of China's imperial past and traditional political philosophy, giving insights into the country's view of its place in today's world. It argues that China today sees the maintenance of order as its own responsibility and that it believes this order needs to attribute different roles to small and big states to ensure stability. Furthermore, it explores the different tools China employs to achieve its vision, including a proactive diplomacy, the control of international discourse, threat of punishment for misbehaviour, and the promise of economic benefits in return for compliance.

Medicare and Medicaid at 50 Alan B. Cohen, David C. Colby, Keith Wailoo, Julian E. Zelizer, 2015 For fifty years Medicare and Medicaid have stood at the center of a contentious debate surrounding American government citizenship and health care entitlement. In *Medicare and Medicaid at 50*, leading scholars in politics, government, economics, health policy, and history offer a comprehensive assessment of the evolution of these programs and their impact on society from their origins in the Great Society era to the current battles over the Affordable Care Act (Obamacare). These highly accessible essays examine Medicare and Medicaid from their origins as programs for the elderly and poor to their later role as a safety net for the middle class. Along the way, they have served as touchstones for heated debates about economics, social welfare, and the role of government. *Medicare and Medicaid at 50* addresses key questions for understanding the past and future of health policy in America, including: What were the origins for these initiatives and how were they transformed over time? What marks have Medicare and Medicaid left on society? In what ways have these programs produced innovation, even in eras of retrenchment? How did Medicaid, once regarded as a poor person's program, expand its benefits and coverage over the decades to become the platform for the ACA's future expansion? The volume's contributors go on to examine the powerful role of courts in these transformations, along with the shifting roles of Congress, public opinion, and state governors in the programs' ongoing evolution. From Lyndon Johnson to Barack Obama on the left, and from Ronald Reagan to George W. Bush on the right, American political leaders have tied their political fortunes to the fate of America's entitlement programs. *Medicare and Medicaid at 50* helps explain why and how those ongoing debates are likely to shape the future of the Affordable Care Act.

Religion and Politics Beyond the Culture Wars Darren Dochuk,2021-10-15 This volume reframes the narrative that has too often dominated the field of historical study of religion and politics the culture wars Influenced by culture war theories first introduced in the 1990s much of the recent history of modern American religion and politics is written in a mode that takes for granted the enduring partisan divides that can blind us to the complex and dynamic intersections of faith and politics The contributors to *Religion and Politics Beyond the Culture Wars* argue that such narratives do not tell the whole story of religion and politics in the modern age This collection of essays authored by leading scholars in American religious and political history challenges readers to look past familiar clashes over social issues to appreciate the ways in which faith

has fueled twentieth century U S politics beyond predictable partisan divides and across a spectrum of debates ranging from environment to labor immigration to civil rights domestic legislation to foreign policy Offering fresh illustrations drawn from a range of innovative primary sources theories and methods these essays emphasize that our rendering of religion and politics in the twentieth century must appreciate the intersectionality of identities interests and motivations that transpire and exist outside an unbending dualistic paradigm Contributors Darren Dochuk Janine Giordano Drake Joseph Kip Kosek Josef Sorett Patrick Q Mason Wendy L Wall Mark Brilliant Andrew Preston Matthew Avery Sutton Kathleen Sprows Cummings Benjamin Francis Fallon Michelle Nickerson Keith Makoto Woodhouse Kate Bowler and James T Kloppenberg
