The Art of Taxidermy John Rowley, 2015-06-24 Excerpt from The Art of Taxidermy Taxidermy a name formerly applied to the trade of most inartistically upholstering a skin has of late years made such enormous strides toward perfection as much perhaps by improvement in methods as by any superior skill on the part of the taxidermist that I am emboldened to describe in the following pages the results of a number of years study experiment and practical work in the taxidermic field It is a fact much to be regretted that many taxidermists by reason of their extreme jealousy and narrowness of mind are exceedingly loath to communicate new ideas and discoveries to their fellow workers But thanks to the more general enlargement and increase in number of scientific museums of late years a number of men of genius and education have taken up the study of the art It is largely owing to their exertions that the taxidermy of the present day is so far in advance of what it was a decade since and the few works on the subject that they have written have been eagerly devoured by every progressive taxidermist in the country Some of the methods described in the following pages may seem to involve considerable time and expense Let it be said in answer to this If a thing is worth doing it is worth doing well About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art

Methods in the Art of Taxidermy (Classic Reprint) Oliver Davie,2016-10-01 Excerpt from Methods in the Art of Taxidermy From this however we cannot infer that these specimens were mounted or arranged to represent life like attitudes

but simply that the skins were preserved If our art is of ancient date we have no relics of it as we find in the other arts as lasting as those of Grecian sculpture which date back as far as the eighth century B C The famous Lion Gate at Mycenae is supposed to be even older We have no monuments in our art that defy the march of time like the bronze Discobolus of Myron yet to be seen in the Vatican at Rome About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
