

Vocation

Question & Answer

Q1. Who is the speaker in the poem? Who are the people the speaker meets? What are they doing?

Ans. The speaker is a going child. The child met a hawker, a gardener and a watchman. All of them were busy in their vocation.

Q2. What wishes does the child in the poem make? Why does the child want to be a hawker, a gardener or a watchman? Pick out the lines in each stanza, which tell us this.

Ans. The lines which tell us

- I wish I were a hawker.
- I wish I were a gardener.
- I wish I were a watchman.

The child wishes to be a hawker, a gardener and a watchman because he\she thinks that they have a wonderful life. In order to enjoy his/her life, the child makes more wishes.

Numeracy as Social Practice Keiko Yasukawa, Alan Rogers, Kara Jackson, Brian V. Street, 2018-05-01 Learning takes place both inside and outside of the classroom embedded in local practices traditions and interactions But whereas the importance of social practice is increasingly recognised in literacy education Numeracy as Social Practice Global and Local Perspectives is the first book to fully explore these principles in the context of numeracy The book brings together a wide range of accounts and studies from around the world to build a picture of the challenges and benefits of seeing numeracy as social practice that is as mathematical activities embedded in the social cultural historical and political contexts in which these activities take place Drawing on workplace community and classroom contexts Numeracy as Social Practice shows how everyday numeracy practices can be used in formal and non formal maths teaching and how in turn classroom teaching can help to validate and strengthen local numeracy practices At a time when an increasingly transnational approach is taken to education policy making this book will appeal to development practitioners and researchers and adult education mathematics and numeracy teachers researchers and policy makers around the world *Inside the Mathematics Class* Uwe Gellert, Christine Knipping, Hauke Straehler-Pohl, 2018-09-26 This volume is a forward looking intersection of Sociological perspectives on mathematics classrooms and socio political perspectives on mathematics education The first perspective has generated a substantial body of knowledge in the mathematics education Interactionist research has deepened our understanding of interaction processes socio mathematical norms and the negotiation of meaning generating a micro sociology or a micro ethnography of the mathematics classroom More recently socio political perspectives on mathematics education interrelate educational practices in mathematics with macro social issues of social equity class and race and with

the policies that regulate institutionalized mathematics education This book documents strings together and juxtaposes research that uses ethnographical classroom data to explain on the one hand how socio political issues play out in the mathematics class On the other hand it illuminates how class race etc affect the micro sociology of the mathematics classroom The volume advances the knowledge in the field by providing an empirical grounding of socio political research on mathematics education and it extends the frame in which mathematical classroom cultures are conceived

Troubling Notions of Global Citizenship and Diversity in Mathematics Education Anna Chronaki,Ayşe Yolcu,2025-03-06 This edited volume explores how mathematics education is re configured in relation to its past present and future when the rhetoric of critical global citizenship education is being applied to diverse local settings Drawing upon diverse theoretical and methodological traditions across the globe including countries in South America Asia Australia and Europe each chapter challenges and eventually troubles the wide circulation of a universal imagery of citizenship based on mathematical competence in not only curriculum school reforms and policy but also in teaching and learning practices Troubling the Euro centric and global notions of citizenship and diversity the book foregrounds local practices in mathematics education to portray a broader picture for the current problems of equity social justice and democracy The book also engages with critical discussions on how citizens and noncitizen are being fabricated in the context of educational policies and specific mathematical practices First of its kind to trouble what is at stake when mathematics education is framed within the discourses of citizenship globally through challenging and problematising what is understood as normal this book will be of relevance to scholars academics and researchers in the field of sociology of education anthropology of education philosophy of education mathematics education citizenship studies and international and comparative education
