Care and Feeding of Witnesses, Expert and Otherwise Maxine Kurtz, Glenn G. McClung, 1974 [A Counsel's Guide to Examining and Preparing Witnesses in International Arbitration](#) Ragnar Harbst, 2015-10-20 Mastering the art of witness examination is essential in order to prevail in international arbitration Lawyers acting as counsel in arbitration know that witness evidence stands out from the plethora of documentary evidence in terms of uniqueness and authenticity A vivid first hand live account of the events in issue exerts a strong influence on the arbitrators and a handful of memorable

testimonies can outweigh an avalanche of documents This book shows how such mastery in the art of witness examination is accomplished In the majority of today's international arbitrations witness examination is modeled around the common law practice of lawyer led questioning Arbitration practitioners are therefore more and more expected to take charge of the examination process Drawing on the principles of the art of advocacy in the common law tradition this persuasive and highly engaging book sets out in great detail the practical techniques applicable to the use of witnesses in arbitration The author describes such elements of witness evidence as the following differences between common law and civil law systems in regard to taking witness evidence techniques for interviewing witnesses and preparing witness statements question techniques for direct examination and cross examination methods for developing forceful cross examinations the boundaries of witness preparation preparing the witness for direct examination and cross examination psychological risks of witness preparation guidelines for witnesses during direct examination and cross examination All topics are illustrated by way of practical examples which also serve as a pool of useful model phrases and expressions Practical appendices include ready to adapt sample documents such as a procedural questionnaire procedural rules and a witness statement The book will be particularly useful for arbitration practitioners who have had little exposure to the adversarial approach to evidence and who wish to learn the ropes of lawyer led witness examination and preparation However any practitioner stands to gain from applying the book's practical guidance and the author's wise counsel *Journal of Applied Rehabilitation Counseling*, 2004

Social Security Disability Law and the American Labor Market Jon C. Dubin, 2021-09-21 How social security disability law is out of touch with the contemporary American labor market Passing down nearly a million decisions each year more judges handle disability cases for the Social Security Administration than federal civil and criminal cases combined In *Social Security Disability Law and the American Labor Market* Jon C Dubin challenges the contemporary policies for determining disability benefits and work assessment He posits the fundamental questions where are the jobs for persons with significant medical and vocational challenges And how does the administration misfire in its standards and processes for answering that question Deploying his profound understanding of the Social Security Administration and Disability law and policy he demystifies the system showing us its complex inner mechanisms and flaws its history and evolution and how changes in the labor market have rendered some agency processes obsolete Dubin lays out how those who advocate eviscerating program coverage and needed life support benefits in the guise of modernizing these procedures would reduce the capacity for the Social Security Administration to function properly and serve its intended beneficiaries and argues that the disability system should instead be mended not ended Dubin argues that while it may seem counterintuitive the transformation from an industrial economy to a twenty first century service economy in the information age with increased automation and resulting diminished demand for arduous physical labor has not meaningfully reduced the relevance of or need for the disability benefits programs Indeed they have created new and different obstacles to work adjustments based on

the need for other skills and capacities in the new economy especially for the significant portion of persons with cognitive psychiatric neuro psychological or other mental impairments Therefore while the disability program is in dire need of empirically supported updating and measures to remedy identified deficiencies obsolescence inconsistencies in application and racial economic and other inequities the program s framework is sufficiently broad and enduring to remain relevant and faithful to the Act s congressional beneficent purposes and aspirations *Life Care Planning and Case Management Handbook* Roger O. Weed, Debra E. Berens, 2018-09-03 Life care planning is an advanced collaborative case management specialty practice focused on assessing evaluating coordinating consulting planning for and monitoring necessary services for individuals with complex medical care needs over their lifetime This handbook provides a comprehensive resource for all people involved with catastrophic impairments and chronic medical care case management The Life Care Planning and Case Management Handbook Fourth Edition begins by defining the roles played by each of the key team members working with the life care planner It provides planners with insights critical to successful interactions with medical and health care related professionals as well as the team members they are most likely to encounter as they work to build an accurate and reliable life care plan Next the text offers up to date information on the medical conditions most frequently encountered by the life care planner The contributors who are recognized experts in their disciplines also address issues in forensic settings ethics standards research and credentials The fourth edition includes numerous chapters on general issues as well as updated standards of practice from the International Academy of Life Care Planners IALCP Life Care Planning Consensus Statements and valuable step by step charts and checklists Completely updated and expanded this revised handbook now includes new chapters on multicultural considerations in life care planning admissibility of life care plans in U S courts and Canadian life care planning practice Additionally infused in other chapters is new information on medical coding and costing for life care planners life care planning in non litigated contexts as well as research and education within life care planning
