Listening to and Learning from Students Brian D. Schultz, 2011-01-01 This book embraces the idea of listening to and learning from students Although many educational theorists have long argued that incorporating children's perspectives about teaching and curriculum has the potential for increasing students interest and participation in learning their radical perspectives are still ignored or dismissed in theory and practice Through featured essays historical excerpts and provocative poetry this collection provides research literature and inquiry ideas that ought to be part of educational debates policy discussions and decision makings Articulated through thoughtful prose and discerning analysis youth teachers and scholars featured in this collection illuminate the power and promise of not only listening to and learning from students but also acting upon the insights of students This book calls for the 21st century educational workers teachers educators parents

community workers administrators and policy makers to perceive students as massive reservoirs of knowledge that invigorate possibilities for teaching learning and curriculum in the contested educational landscape

There Are No Deficits Here Lauren M. Wells,2023-07-27 Decades of school reform efforts in the United States have had little to no impact on closing opportunity gaps From A Nation at Risk through the standards movement to the carrot and stick accountability provisions of the No Child Left Behind era we have failed to unseat institutional racism and other inequities The pandemic and recent spotlight on racial injustice have laid bare a simple but painful truth our institutions and systems are doing exactly what they were designed to do to act in the best interest of the privileged and powerful at the expense of historically marginalized children and their families
