VW Transporter and Microbus Specification Guide 1967-1979 Vincent Molenaar, Alexander Prinz, 2013-03-01 This comprehensive guide is the first one to tell the whole story of the Volkswagen Bay Window Transporter produced from 1967-1979. This new paperback edition deals with the Transporter's development, its technical evolution, the model codes, the specification details, changes, the factory-fitted M codes, and Transporter export. Using this book, bus enthusiasts can crack the codes of their own specific vehicle to find out the factory-fitted specifications like paint and trim colours, engine and transmission types, and even the date of manufacture, model, and destination code. The first guide to tell the whole story of the VW Bay Window Transporter. The photographs took over three years to collect from Volkswagen archives, resulting in an invaluable source of crucial information for restoration. Superbly illustrated with 470 colour photographs. Vincent Molenaar and Alexander Prinz are keen experts on Bay Window buses.

VW Beetle Specification Guide 1949-1967 Richard Copping, 2018-10-31 The VW Beetle is one of the best-loved of all classic cars, with many thousands preserved across the world, many in regular use. Over the years, countless changes were introduced, together making a mid-sixties Beetle, for instance, very different from one built in the mid-50s or mid-70s, despite the obvious similarities. With the aid of hundreds of full-colour photographs, this new edition in paperback documents all the Beetle's specification changes and model differences during the classic period 1949-67, making it possible to determine the original specification and fittings of any Beetle from this period. Uses the same format as for the highly successful VW Transporter spec guides. Aimed at early Beetle owners and enthusiasts. Superbly illustrated with 300 colour photographs. New edition in paperback for 2018. Federal Trade Commission Decisions United States. Federal Trade Commission, 1988. **Federal Register**, 1987-05-13. *VW Beetle* Richard Copping, 2001. Between 1945 and 2000, almost 22 million Beetles were sold worldwide. Richard Copping explores 55 years of automotive evolution in words and photographs of one of the most important motor cars of the 20th century.
