School Science Practical Work in Africa Umesh Ramnarain, 2020-06-01 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry based learning which signals a definite paradigm shift from the traditional teacher dominated to a learner centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work and professional development in teaching practical work. This book will be of great interest to academics, researchers and post graduate students in the fields of science education and educational policy.

Language Planning in Africa Nkonko Kamwangamalu, Richard Baldauf Jr., Robert Kaplan, 2016-04-08

This volume focuses on language planning in the Cameroon, Sudan and Zimbabwe, explaining the linguistic diversity, historical and political contexts, current language situation, including language in education, planning the role of the media, the role of religion and the roles of non indigenous languages. The authors are indigenous to the situations described and draw on their experience and extensive fieldwork there. The extended case studies contained in this volume draw together the literature on each of the polities to present an overview of the existing research available while also providing new research based information. The purpose of this volume is to provide an up to date overview of the language situation in each polity based on a series of key questions in the hope that this might facilitate the development of a richer theory to guide language policy and planning in other polities where similar issues may arise. This book comprises case studies originally published in the journal *Current Issues in Language Planning*.
