Inocent Moyo, Trynos Gumbo

Zimsec Geography Questions 2paper 2:

Teacher in Zimbabwe, 2014 **Urban Geography in Postcolonial Zimbabwe** Abraham R. Matamanda, Verna Nel, Innocent Chirisa, 2021-05-07 This interdisciplinary book provides a cross sectoral and multi dimensional exploration and assessment of the urban geography perspectives in Zimbabwe Drawing on work from different disciplines the book not only contributes to academia but also seeks to inform urban policy with the view of contributing to the national aspirations of Zimbabwe attaining middle income status by 2030 Adopting a multi dimensional assessment that transcends disciplines such as urban and regional planning human and physical geography urban governance political science economics and development studies the book provides a background for co production concerning urban development in the Global South The book contributes into its analysis of the institutional and legislative framework that relates to the urban geography of Zimbabwe as these are responsible for the evolution of the urban system in the country The connections among different sectors and issues such as environment economy politics and the wider objectives of the SDGs especially goal 11 aspiring to create sustainable communities by 2030 are explored The success stories relating to urban geography in Zimbabwe are identified together with the best possible practices that may inform urban planning policy and management *Urban Informality in South Africa and Zimbabwe* Innocent Moyo, Trynos Gumbo, 2021-01-09 This book adds to the research of urban informality in the Global South with a specific focus on South Africa and Zimbabwe It addresses the agency and the potential transformative capacity of the phenomenon of urban informality in connection with Southern African cities and towns It adopts a political economy approach to analyse the evolution of informality in cities and its implications for urban planning It brings to bear how the South African and Zimbabwean historical and or ideological and contemporary political and economic trajectories have impacted on the ever changing nature of urban informality both spatially and structurally and or compositionally thus resulting in unique urban materialities which are aspects that have scarcely been studied or discussed in the extant literature This book therefore seeks to close the academic gap by dealing with the dearth of literature on spatial re locational discourses of urban informality The work positions urban informality as a resilient force with potency in terms of political mobilisation and re shaping urban spaces Though these are fundamental issues they have received comparatively little attention especially in literature that focuses on the Southern African region Accordingly undergraduate and post graduate students as well as academics in the fields of Urban Geography Political Science Development Studies Sociology Town and Regional Planning among others will find the range of topics and depth of coverage in this book particularly valuable Similarly practitioners and activists on issues of urban informality and urban governance will find the book very useful **Geographical Education Magazine**, 1996 Private Wildlife Conservation in Zimbabwe Harry Wels, 2021-11-08 This book is the first about private wildlife conservation and community involvement in Zimbabwe It is a case study based on ethnographic fieldwork done in 1998 It focuses on the joint venture between a private wildlife conservation initiative the

Save Valley Conservancy and its surrounding communities in terms of reciprocal exchange and the land question It makes clear amongst other things that the current political tragedy in Zimbabwe about land did not start when Mugabe lost the referendum in February 2000 The book tries to offer an explanation for the unforgiving route that Mugabe has obviously taken in the land question despite his words of reconciliation when he came to power in 1980 This book is of particular interest to students practitioners and academics in the fields of private wildlife conservation community participation and organisational co operation

Extractive Industry Indigenisation in Zimbabwe Kennedy Manduna, 2025-09-25 This book explains how and why Zimbabwe s extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe s extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe s government following the controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development

Geographical Journal of Zimbabwe ,1990 [Handbook of Pleistocene Archaeology of Africa](#) Amanuel Beyin, David K. Wright, Jayne Wilkins, Deborah I. Olszewski, 2023-08-17 This handbook showcases an Africa wide compendium of Stone Age archaeological sites and methodological advances that have improved our understanding of hominin lifeways and biogeography in the continent The focal time spans the Pleistocene Epoch c 2 5 million 11 700 years ago during which important human traits such as obligate bipedalism that freed the hands to engage in creative activities a large brain relative to body size language and social complexity developed in the general forms that they are found today The handbook is the first of its kind and it is expected to play a significant role in human evolutionary research by Collating the African Stone Age record which exists in a fragmented state along the lines of national boundaries and colonial experiences Showcasing emerging conceptual and methodological advances in African Pleistocene archaeology Providing reference

datasets for teaching and researching African prehistory Making Africa's Stone Age record accessible to researchers and students based in Africa who may not have access to journal publications where most new field discoveries are published The Handbook features 128 chapters of which 116 are site entries grouped by the host countries and presented in an alphabetical order A number of those site related entries examine multiple archaeological localities lumped under specific projects or study areas The rest of the contributions deal with methodological topics such as luminescence and radiocarbon dating field data recovery lithic analysis micromorphology and hominin fossil and zooarchaeological records of Pleistocene Africa The introductory chapter provides an historical overview of the development of Stone Age Paleolithic archaeology in Africa beginning in the mid 19th century and paleoenvironmental and chronological frameworks commonly used to structure the continent's Pleistocene record By making a good amount of African Stone Age literature accessible to researchers and the public we wish to promote interest in human evolutionary research in the continent and elsewhere Awarded the 2025 The Best Book Award by The Society of Africanist Archaeologists Great Zimbabwe, Mashonaland, Rhodesia R. haunted by our apartheid and colonial past How we respond to but even before responding how we understand the many challenges we face today ongoing poverty crime corruption equality dignity freedom of speech may depend on how we relate to past present and future and specifically how we frame the stories of the struggle against colonialism and against apartheid Becoming post colonial post apartheid requires new angles new starting points It might be fruitful to study the actions and speech of Julius Malema in light of Scott s observations In other words we could reflect on the extent to which Malema remains in an anti colonial struggle engulfed by Romanticism and is therefore not engaged in a postcolonial struggle and accordingly fails to engage in a politics for a possible future Scott 2004 In this edition of Pulp fictions Pierre De Vos takes another angle on the issue of Julius Malema s singing of struggle songs and his statements concerning victims of rape De Vos argues for us not to be blinded by debates on freedom of speech hate speech if the real issue is a political struggle for socio economic transformation For De Vos poverty corruption discrimination and a lack of service delivery are far more important issues that need to be faced head on Willie Spies in response to De Vos argues for a change of our mindset and that such a change is not contrary to socioeconomic reform but rather tightly connected to it About the Editor Karin van Marle is a Professor at the Department of Legal History Comparative Law and Jurisprudence at the Faculty of Law University of Pretoria

Vogel,2019-08-22 First Published in 1994 This research guide was written as a comprehensive though by no means exhaustive survey of the literature pertinent to studying the indigenous complex societies of south central Africa Although the paramount focus of the compilation was the archaeology of Great Zimbabwe the author has drawn from a broad geographical area and a wider period of time than that usually associated with Zimbabwean culture in order to demonstrate the cultural background for the growth of monumental trading towns in south central Africa **Zimbabwe's Agricultural Revolution Revisited** Mandivamba Rukuni,Patrick Tawonezwi,Carl K. Eicher,Mabel Munyuki-Hungwe,Prosper Bvumiranayi Matondi,2006 **Climate Change and Agriculture in Zimbabwe** Mark Matsa,2020-09-03 This book proves through empirical research that indigenous and traditional agricultural communities have experienced severe climate change impacts and have developed corresponding livelihood strategies to strengthen their resilience in a variable climate With a focus on indigenous minority farming communities in the developing region of South Western Zimbabwe the study presents both qualitative and quantitative approaches of data analysis to assess sustainability problems amid climate change and climate variability challenges and proposes potential solutions In eight chapters the book expands on the scarce availability of community based research on climate change and variability in Zimbabwe The book is meant for college and university students and stakeholders involved in development work in rural minority farmer communities especially in climate change prone regions of Africa and other developing countries who have very few options of adaptation and mitigation **The**
