relevance In an approachable way but without avoiding complexity Embodying Mind leads the reader through the Worlds of panpsychism idealism Aristotelianism emergence and information theory holism and process theology examining the ideas of ethics and God and the difficult questions accompanying each Thompson concludes that causal processes harmonize as in a cosmic counterpoint The world and its beautiful contents form a seamless material whole It is not as if Mind or God glints obscurely through ever narrowing chinks in otherwise seamless nature There are no chinks but the whole is full of Mind Overall imperfectly things are moving towards their sustaining good God is becoming God surpassing God Embodying Mind can be read independently from Outgrowing Materialism but together the two volumes of Ten Ways to Weave the Word mount a robust wide ranging case that nobody interested in the science v religion debate or wishing more widely for an integrated understanding of Matter Mind and God can afford to ignore My Favorite Fangs Alan Goldsher,2012-08-07
